Water as a source of origin

The history of IB Rubinetti is rooted in a land of lakes and rivers, where the abundance of water has always been a crucial element for the socio-economical identity of the region. Brescia territory has always taken advantage of the wild waters of its rivers and of the placid surfaces of its lakes for its industrial and agricultural development.

Val Trompia has been one of the most active industrial centres in Italy since the beginning of the nineteenth century.

The town of Sarezzo, heart of the Val Trompia economic activity, is crossed by a source of life and abundance, River Mella, which flows from the peaks of Mount Maniva to the Po valley. Not far away, the River Oglio generates Lake Iseo flowing from Val Camonica, while Lake Garda originates from the dolomitic waters.
The influence that the territory has on IB Rubinetti's work is constant, and can also be found in the raw material selected, the brass. Residence to one of the most important national iron and steel industries,

ITA

L'acqua come origine

La storia di IB Rubinetti è radicata in una terra di laghi e di fiumi, in cui l'abbondanza dell'acqua è da sempre un fattore determinante per l'identità sociale ed economica della regione. Il territorio bresciano ha da sempre sfruttato le torrentizie acque dei suoi fiumi e le placide superfici dei suoi laghi per il proprio sviluppo industriale e agricolo.

La val Trompia era già all'inizio dell'Ottocento uno dei centri industriali più attivi d'Italia.

Il paese di Sarezzo, fulcro dell'attività economica della val Trompia, è attraversato da una fonte di vita e di abbondanza, il fiume Mella, che scorre dalle cime del monte Maniva fino alla pianura padana. Poco lontano, il fiume Oglio dalla Val Camonica genera il lago d'Iseo, mentre dalle acque dolomitiche ha origine il lago di Garda.
L'influenza che il territorio ha sul lavoro di IB Rubinetti è costante, e la si ritrova anche nella materia prima lavorata, l'ottone. Sede di una delle più importanti industrie siderurgiche nazionali, che comprende

L’eau comme origine

L’histoire de IB Rubinetti est ancrée dans un territoire de lacs et de rivières, où l’abondance d’eau a toujours été un facteur déterminant pour l’identité sociale et économique de la région. La région de Brescia a depuis toujours exploité les eaux torrentielles de ses rivières et les placides surfaces de ses lacs pour son développement industriel et agricole.

La Val Trompia était l’un des centres industriels les plus actifs d’Italie déjà au début du XIXe siècle.

Le village de Sarezzo, cœur de l’activité économique de la Val Trompia, est traversé par une source de vie et d’abondance, la rivière Mella, qui coule du sommet du mont Maniva jusqu’à la vallée du Po. Un peu plus loin, la rivière Oglio, provenant de la Val Camonica, forme le lac d’Iseo, tandis que les eaux dolomitiques donnent origine au lac de Garde.
L’influence du territoire sur le travail d’IB Rubinetti est constante et se retrouve également dans la matière première traitée, le laiton. Siège de l’une des plus

ENG

which includes the entire iron processing cycle, Val Trompia has been one of the most active industrial centres in Italy since the beginning of the nineteenth century: the forges, with their fascinating hydraulic technology, exploited the bursting force of water flowing downstream to work this material, available in rich quantities in the whole territory. IB Rubinetti has managed to keep this ancient industrial tradition alive by working high quality brass. However, the tradition is not only the geographical one, but also the familiar one, transmitted from generation to generation.

IB Rubinetti was born in 1985 from Elio Bregoli's passion and high competence.

IB Rubinetti was born in 1985 from the passion and high competence of Elio Bregoli, president of the company. Built together with his wife Antonella, IB Rubinetti is enriched by their children's new ideas, enthusiasm and love for the profession. Andrea and Davide have recognized the value of tradition and have opened the business to international markets. However, the family is not only the one determined by blood ties, it is also the one we choose, the ones we love and the collaborative relationships that we build throughout a lifetime.

Being part of the IB world means being part of a family.

ITA

l'intero ciclo della lavorazione del ferro, la val Trompia era già all'inizio dell'Ottocento uno dei centri industriali più attivi d'Italia: i magli, con la loro affascinante tecnologia idraulica, sfruttavano la forza prorompente dell'acqua che scende verso valle per lavorare la materia prima di cui il territorio si mostrava ricco.
IB Rubinetti è riuscita a mantenere viva questa antica tradizione industriale, lavorando un ottone di alta qualità.
La tradizione non è tuttavia solo quella geografica, ma anche quella familiare, trasmessa di generazione in generazione.

IB Rubinetti nasce nel 1985 dalla passione e l'alta competenza di Elio Bregoli.

IB Rubinetti nasce nel 1985 dalla passione e l'alta competenza di Elio Bregoli, presidente dell'azienda. Fondata insieme alla moglie Antonella, IB Rubinetti si arricchisce grazie alle nuove idee, l'entusiasmo e l'amore per la professione, dei figli Andrea e Davide, che riconoscono il valore della tradizione e aprono l'azienda all'internazionalità.
La famiglia non è peraltro solo quella determinata dai legami di sangue, è anche quella che noi ci scegliamo, gli affetti e le relazioni collaborative che intessiamo nel corso di tutta una vita.

Essere parte del mondo IB significa far parte di una famiglia.

FRA

importantes industries sidérurgiques nationales, qui couvre le cycle entier du travail du fer, la Val Trompia était, déjà au début du XIXe siècle, l'un des centres industriels les plus actifs d'Italie: les marteaux hydrauliques, avec leur technologie fascinante, exploitaient la force irrépressible de l'eau qui descend vers la vallée pour travailler la matière première dont le territoire est riche. IB Rubinetti a réussi à maintenir cette ancienne tradition industrielle en travaillant un laiton de haute qualité. Cependant, la tradition n'est pas seulement celle géographique, mais aussi celle familiale, transmise de génération en

IB Rubinetti a été fondée en 1985 grâce à la passion et l'haute compétence d'Elio Bregoli.

génération. IB Rubinetti a été fondée en 1985 grâce à la passion et à l'haute compétence d'Elio Bregoli, président de la société. Fondée avec son épouse Antonella, IB Rubinetti s'enrichit grâce aux nouvelles idées, à l'enthousiasme et à l'amour du métier des fils Andrea et Davide, qui reconnaissent la valeur de la tradition et ouvrent l'entreprise à l'internationalité.Toutefois, la famille n'est pas seulement déterminée par les liens de sang, elle est aussi celle choisie, les affections et les collaborations que nous tissons tout au long de notre vie.

Faire partie du monde IB, c'est faire partie d'une famille.

ENG

This is why the IB family grows to include all workers and collaborators who, over the years, have engaged, together with the Bregoli family, this journey in an industrial production based on local traditions.

IB Rubinetti products are the outcome of the most advanced technological innovations, with a particular care for details and a technical and aesthetic quality.

IB Rubinetti's products do not emerge just from tradition, but also from the encounter with the most advanced technological innovations and from an attention to details and to technical and aesthetic qualities without equal.
The most innovative element is, without any doubt, the raw material processing method. The processed brass alloy is free of lead and zinc, and therefore hypoallergenic and purified by the main pollutants. Another revolutionary element is the desire to internalize the whole production chain: IB Rubinetti is involved in the manufacturing and the production of every single component, from the raw material to the most particular finishes.
An innovation that doesn't stop at the content, but also concerns the form. First in history, IB Rubinetti has become, since the beginning of the 2000s, a constant sponsor and collaborator in the field of Italian design, combining functionality of form with innovation in aesthetics.

ITA

È così che la famiglia IB si allarga e racchiude tutti i lavoratori e i collaboratori che, nel corso degli anni, hanno affrontato insieme alla famiglia Bregoli questo viaggio nella produzione industriale fondata sulla tradizione locale.

I prodotti di IB sono il frutto delle più avanzate innovazioni tecnologiche con un'attenzione al dettaglio e alla qualità tecnica ed estetica.

I prodotti di IB Rubinetti non sono solo frutto della tradizione, ma anche dell'incontro con le più avanzate innovazioni tecnologiche, e con un'attenzione al dettaglio e alla qualità tecnica ed estetica senza pari.
Gli elementi innovativi si ritrovano innanzitutto nel metodo di lavorazione della materia prima. La lega d'ottone prodotta è priva di piombo e zinco, e dunque anallergica e purificata dai principali agenti contaminanti.
Un ulteriore elemento rivoluzionario è la volontà di internalizzare l'intera catena produttiva: IB Rubinetti si occupa della lavorazione e produzione di ogni singolo componente dei suoi articoli da bagno, dalla materia prima fino alle più particolari finiture.
Un'innovazione che non si ferma al contenuto, ma che riguarda anche la forma. Primo nella storia, IB Rubinetti si fa, fin dall'inizio degli anni Duemila, sponsor e collaboratore costante del mondo del design italiano, unendo funzionalità della forma a innovazione estetica.

FRA

C'est ainsi que la famille IB s'élargit en incluant tous les travailleurs et collaborateurs qui, au fil des années, ont affronté, à coté de la famille Bregoli, ce voyage dans une production industrielle fondée sur la tradition locale.

Les produits IB Rubinetti sont le résultat des innovations technologiques les plus avancées, soucieuses du détail et de la qualité technique et esthétique.

Les produits IB Rubinetti ne sont pas seulement le fruit de la tradition, mais aussi de la rencontre avec les innovations technologiques les plus avancées, soucieuses du détail et d'une qualité technique et esthétique sans égal.
Les éléments innovants se trouvent avant tout dans la méthode de fabrication de la matière première. L'alliage de laiton produite est sans plomb ou zinc et est donc anallergique et purifié des principaux agents contaminants. Un ultérieur élément révolutionnaire est la volonté d'internaliser l'entière chaîne de production: IB Rubinetti s'occupe de la transformation et production de chaque composant pour ses articles, à partir de la matière première jusqu'aux finitions les plus particulières. Une innovation qui ne se limite pas au contenu, mais qui concerne également la forme.
Première dans l'histoire, IB Rubinetti est devenue, à partir du début des années 2000, sponsor et collaborateur constant du design italien, combinant fonctionnalité et innovation esthétique.

ENG

IB Rubinetti has become a reference point for architects and designers.

Crossing all boundaries, IB deals with the most intriguing exponents of Italian excellence, opening up to numerous collaborations, driven by its sincere curiosity and genuine desire to learn from different cultures and fields. This is why IB Rubinetti has become an unquestionable and indispensable reference point for architects and designers like Maurizio Duranti, Giulio Iacchetti, Lorenzo Damiani, Remì Theberge, Marco Acerbis, Nadia Monigliardi, Antonio Gardoni, Federico Castelli and many more. The goal is always to develop high-design projects, innovative and daring in their aesthetics, but always attentive to the high functionality of the product.

The goal is always to develop high-design projects.

Therefore, our enterprise chooses the path of a design categorically made in Italy, as the only possible solution to create a future that learns from history and progresses towards new horizons.
A formula, this synthesis between tradition and innovation, functionality and aesthetic, which has also earned IB Rubinetti worldwide development and collaborations with many companies outside the national

ITA

IB Rubinetti è diventato un punto di riferimento per architetti e designer.

Valicando tutti i confini, IB si confronta con le più interessanti rappresentanze dell'eccellenza italiana aprendosi a numerose collaborazioni, spinti dalla sincera curiosità e la genuina voglia di imparare da culture e saperi differenti.
Ecco perché IB Rubinetti è diventato un punto di riferimento indiscusso e imprescindibile per architetti e designer del calibro di Maurizio Duranti, Giulio Iacchetti, Lorenzo Damiani, Remì Theberge, Marco Acerbis, Nadia Monigliardi, Antonio Gardoni, Federico Castelli e molti altri. L'obiettivo è sempre quello di sviluppare progetti di alto design, innovativi e intraprendenti nella loro estetica, ma sempre con un occhio di riguardo all'alta funzionalità del prodotto.

L'obiettivo è sempre quello di sviluppare progetti di alto design.

L'azienda sceglie così la via del design, categoricamente made in Italy, come unica soluzione possibile al fine di creare un futuro che impari dalla storia e progredisca verso nuovi orizzonti.
Una formula, questa sintesi tra tradizione e innovazione, funzionalità e qualità estetica, che è valsa a IB Rubinetti anche l'espansione globale e la collaborazione con molte realtà al di fuori dei confini nazionali,

IB Rubinetti est devenu un point de référence pour architectes et designers.

Franchissant toutes les frontières, IB se mesure avec les plus intéressants représentants de l'excellence italienne et s'ouvre à de nombreuses collaborations, animée par l'authentique curiosité et le désir sincère d'apprendre par les différentes cultures et domaines. Voilà pourquoi IB Rubinetti est devenue un point de référence incontesté et indispensable pour des architectes et designers comme Maurizio Duranti, Giulio Iacchetti, Lorenzo Damiani, Remì Theberge, Marco Acerbis, Nadia Monigliardi, Antonio Gardoni, Federico Castelli et bien d'autres. L'objectif est toujours de développer des projets de haut design, innovants et entreprenants de leur esthétique, mais toujours attentifs à l'haute fonctionnalité du produit.

Le but est toujours de développer des projets de haut design.

L'entreprise choisit ainsi la voie du design, catégoriquement made in Italy, comme la seule solution possible pour créer un avenir qui tire parti de l'histoire et progresse vers de nouveaux horizons.
Une formule, cette synthèse entre tradition et innovation, fonctionnalité et qualité esthétique, qui a même valu à IB Rubinetti une expansion mondiale et une collaboration avec de nombreuses

ENG

borders, opening to the international only to underline more the intrinsic value of its product.
Operative in sixty-four countries and over five continents, the IB brand has become the ambassador of Italian design production worldwide. Learning from other cultures and suiting different economies, but always maintaining the best quality standards that Italy can offer, IB Rubinetti means to remain consistent with its identity and tradition, but also to confront and please every market needs and desires.

Acerbis

Biography

Graduated in architecture at the Milan Polytechnic in 1998, he moved immediately to London, where he worked for Lord Norman Foster until 2004, when he inaugurated his agency in Italy. Always looking for new technologies and subjects, Marco Acerbis designs avant-garde projects, always focused on environmental sustainability.
Among the most important designs, we'll mention the Vertigo lamp, included in the permanent collection of the Vitra Design Museum, and two Italian buildings, certified Class A, Xellox Energy Lab and Polins.

Biografia

Laureato in architettura al Politecnico di Milano nel 1998, si trasferisce subito a Londra, dove lavora presso Lord Norman Foster fino al 2004, anno d'inaugurazione del suo studio in Italia. Alla continua ricerca di nuove tecnologie e soggetti, Marco Acerbis idea design d'avanguardia, sempre attenti alla sostenibilità ambientale.
Tra i progetti più importanti, ricordiamo la lampada Vertigo, inclusa nella collezione permanente del Vitra Design Museum, e i due edifici italiani, certificati Classe A, Xellox Energy Lab e Polins.

Biographie

Diplômé en architecture à l'École polytechnique de Milan en 1998, il s'installe immédiatement à Londres, où il travaille chez Lord Norman Foster jusqu'en 2004, année de l'inauguration de son agence en Italie. Toujours à la recherche de nouvelles technologies et de nouveaux sujets, Marco Acerbis conçoit des designs avant-gardistes et toujours attentifs à la durabilité environnementale.
Parmi les projets les plus importants, citons la lampe Vertigo, figurant dans la collection permanente du Vitra Design Museum, et les deux bâtiments italiens, certifiés de classe A, Xellox Energy Lab et Polins.

Castelli

Biography

Graduated in Industrial Design, Federico Castelli began his profession in 2006 by collaborating with several design studios. In 2016 he founded his homonymous agency, specializing in numerous branches of design, from product to graphic design, from interior design to installations, claiming various collaborations with IB Rubinetti, Max Mara, Innova energie. At the centre of each project is the aesthetic element, not as an absolute ideal, but rather as the result of a dedicated and consistent work.

Biografia

Formatosi in Industrial Design, Federico Castelli nel 2006 inizia la professione collaborando con diversi studi di design. Nel 2016 fonda il suo omonimo studio specializzato nelle molteplici discipline del design, dal prodotto alla grafica, dagli interni agli allestimenti, vantando collaborazioni con IB Rubinetti, Max Mara, Innova energie . Al centro di ogni suo progetto è situato l'elemento estetico, non come un ideale assoluto, ma piuttosto come il risultato di uno lavoro assiduo e coerente.

Biographie

Diplômé en design industriel, Federico Castelli entreprend sa profession en 2006, en collaborant avec plusieurs agences de design. En 2016, il fonde son agence homonyme spécialisée dans les multiples disciplines du design, à partir du design de produit jusqu'à la graphique, du design d'intérieurs aux installations, et il collabore avec IB Rubinetti, Max Mara et Innova energie. L'élément esthétique est au centre de chaque projet, non pas en tant qu'idéal absolu, mais plutôt comme le résultat d'un travail constant et cohérent.

Damiani

Biography

Born in 1972 and graduated in architecture at the Milan Polytechnic, Lorenzo Diamanti has always been involved in furniture and product design, collaborating with companies like Illy Caffè, IB Rubinetti and Lavazza. He was a guest of the Triennale Design Museum with three solo exhibitions, the first in 2009 edited by M. Romanelli, the followings in 2012 by G. Castiglioni and S. Annicchiarico. In the sixth edition of 2013, the Triennale entrusted him with the planning of an exhibition dedicated to the Castiglioni brothers.

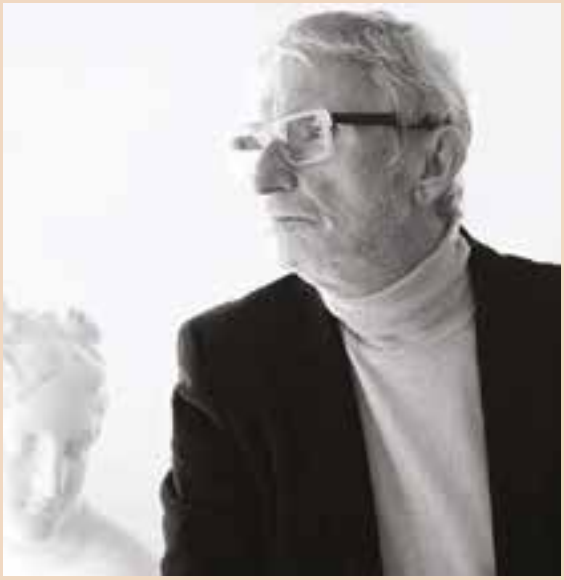
Biografia

Classe 1972, laureatosi in architettura al Politecnico di Milano, Lorenzo Diamanti si occupa da sempre di furniture and product design, collaborando con aziende del calibro di Illy Caffè, IB Rubinetti e Lavazza. È stato ospite del Triennale Design Museum con tre mostre personali, la prima nel 2009 curata da M. Romanelli, le successive nel 2012 a cura di G. Castiglioni e S. Annicchiarico. La Triennale gli ha affidato, nella sesta edizione del 2013, l'allestimento della mostra dedicata ai fratelli Castiglioni.

Biographie

Né en 1972, diplômé en architecture à l'École polytechnique de Milan, Lorenzo Diamanti s'est toujours occupé de furniture and product design, en collaborant avec des entreprises comme Illy Caffè, IB Rubinetti et Lavazza. Il a figuré dans le Triennale Design Museum avec trois expositions personnelles, la première en 2009 organisée par M. Romanelli, les suivantes en 2012 par G. Castiglioni et S. Annicchiarico. Lors de la sixième édition de 2013, la Triennale lui a confié l'organisation de l'exposition dédiée aux frères Castiglioni.

Duranti



Biography

Born in Florence in 1949, Maurizio Duranti graduated in Architecture at Genoa in 1976, and in this city he opened his first agency until 1987, when he moved to Milan. He works as an architect and, above all, as an Industrial designer, working for numerous companies in the household sector. Many of his designed products are included in international museums collections. He is a ten times winner of the Chicago Good Design Award and he was granted the honourable mention at the Compasso d'Oro in Milan.

Biografia

Nato a Firenze nel 1949, Maurizio Duranti si laurea in Architettura a Genova nel 1976, e in questa città apre il suo primo studio fino al 1987, anno in cui si trasferisce a Milano. Si occupa di architettura, ma soprattutto di Industrial Design, progettando per numerose aziende in tutti i settori del casalingo. Numerosi prodotti da lui disegnati sono presenti nelle collezioni di musei internazionali. È dieci volte vincitore del GOOD DESIGN AWARD di Chicago ed è stato insignito della Segnalazione d'Onore al Compasso d'Oro di Milano.

Biographie

Né à Florence en 1949, Maurizio Duranti obtient son diplôme d'architecture à Gênes en 1976. Il ouvre sa première agence dans cette ville jusqu'en 1987, date à laquelle il s'installe à Milan. Il s'occupe d'architecture, mais surtout de design industriel, planifiant pour de nombreuses entreprises dans tous les secteurs ménagers. De nombreux produits par lui conçus figurent dans les collections des musées internationaux. Il a remporté dix fois le Good Design Award de Chicago et il a reçu la Recommandation d'Honneur au Compasso d'Oro de Milan.

Gardoni

Biography

Born in 1972 in Brescia and graduated in Architecture in Venice in 1997, after many work experiences abroad, he created his architectural agency AG Studio in 2004, where he is specialized in interior architecture, but also in graphic and product design, communication and art direction. Its customers include Redbull, Nike, Google, Levi's, IB Rubinetti and Lever Faberger. He is also the creator of the Bogue-Profumo brand, for the design, production and distribution of artistic perfumes.

Biografia

Nato nel 1972 a Brescia e laureatosi in Architettura a Venezia nel 1997, dopo numerose esperienze di lavoro all'estero, crea nel 2004 lo studio di architettura AG Studio, dove si occupa di architettura degli interni, ma anche di design grafico e di prodotto, comunicazione e art direction. Tra i suoi clienti si enumerano Redbull, Nike, Google, Levi's, IB Rubinetti e Lever Faberger. È anche il creatore del marchio Bogue-Profumo, per l'ideazione, la produzione e la distribuzione di profumi artistici.

Biographie

Né en 1972 à Brescia et diplômé en architecture à Venise en 1997, après de nombreuses expériences de travail à l'étranger, il crée l'agence d'architecture AG Studio en 2004, où il s'occupe d'architecture et d'interior design, mais également du design graphique et de produit, de communication et de direction artistique. Parmi ses clients figurent Redbull, Nike, Google, Levi's, IB Rubinetti et Lever Faberger. Il est également le créateur de la marque Bogue-Profumo, spécialisée dans la conception, la production et la distribution de parfums artistiques.

Iacchetti

Biography

Industrial designer since 1992, Giulio Iacchetti works with well-known national brands, including Alessi, Fontana Arte and Pandora design. Acknowledged for his ability to define new object types, his design research earned him multiple recognitions. Granted two Compasso d'Oro Awards in 2001 and 2014, he was also the recipient of the 2009 Innovation Awards and, in the same year, was honoured by the Milan Triennale with a solo exhibition entitled "Disobedient Objects".

Biografia

Industrial designer fin dal 1992, Giulio Iacchetti collabora con noti marchi nazionali, tra cui Alessi, Fontana Arte e Pandora design. Riconosciuto per la sua capacità di definire nuove tipologie oggettuali, la ricerca progettuale gli è valsa numerosi premi. Insignito per due volte del Compasso d'Oro, nel 2001 e nel 2014, ottiene nel 2009 il Premio dei Premi per l'innovazione e, nello stesso anno, è onorato dalla Triennale di Milano, che ospita una sua mostra personale intitolata "Oggetti disobbedienti".

Biographie

Designer industriel dès 1992, Giulio Iacchetti collabore avec de grandes marques nationales, notamment Alessi, Fontana Arte et Pandora Design. Reconnu pour sa capacité de définir de nouveaux types d'objets, la recherche lui a valu de nombreux prix. Décoré de deux prix Compasso d'Oro en 2001 et 2014, il a remporté le Prix des Prix pour l'innovation en 2009 et a été honoré la même année par la Triennale de Milan, qui a accueilli une exposition personnelle intitulée "Objets désobéissants".

From the idea to the product.

The design and manufacturing processes of IB Rubinetti products take place entirely within the company: from design to engineering, from plating to assembly, each step is performed under the watchful eye and capable hands of our enterprise.

Il percorso di progettazione e fabbricazione dei prodotti IB si svolge integralmente all'interno dell'azienda: dal design all'ingegnerizzazione, dalla cromatura fino all'assemblaggio, ogni passaggio viene svolto sotto l'occhio attento e le mani esperte dei nostri operatori.

Le parcours de conception et de fabrication des produits IB Rubinetti se déroule entièrement à l'intérieur de l'entreprise: du design à l'ingénierie, du chromage à l'assemblage, chaque étape est réalisée sous les yeux vigilants et les mains expertes de notre société.

Our products are systematically submitted to a reasoned series of six specific tests, in order to assess and evaluate the high quality of our offer.

I nostri prodotti sono sistematicamente sottoposti a una serie ragionata di sei test specifici, volti a collaudare e valutare l'alta qualità della nostra offerta.

IB BOX

The brilliant way to think about water.

Il modo più geniale per ragionare l'acqua.
La façon la plus géniale de raisonner l'eau.

IB BOX is a universal water mixing system, ready to transform the traditional way of imagining the bathroom. Preliminarily fixed to the wall and adaptable to any IB Rubinetti collection, for faucets or showers, it guarantees thin and light appliances and an absolute and immediate creative freedom.

IB BOX è un sistema universale per la miscelazione dell'acqua, pronto a rivoluzionare il modo tradizionale di pensare il bagno. Preliminarmente montato a muro e adattabile a qualsiasi collezione IB Rubinetti, da lavabo o doccia, garantisce apparecchiature esili e leggere e una libertà creativa assoluta e immediata.

IB BOX est un système universel de mixage de l'eau, prêt à révolutionner la manière traditionnelle de penser à la salle de bain. Installé au mur de façon préliminaire et adaptable à toute collection IB Rubinetti, évier ou douche, il garantit un appareil mince et léger ainsi qu'une liberté de création absolue et immédiate.

D
C
A

A C B D

A front and back plastic case, equipped with plastic protection caps, encloses and protects a brass body, which allows the connection to the hydraulic system of the external components through specific seals, adaptable to any IB Rubinetti product on the market.

Un case in plastica (A) frontale e posteriore, fornito di tappi di protezione (C) anch'essi in plastica, racchiude e protegge al suo interno un corpo in ottone (B), che permette l'allaccio all'impianto idraulico delle componenti esterne tramite guarnizioni (D) adattabili a qualsiasi prodotto IB Rubinetti sul mercato.

Un case en plastique (A) antérieur et postérieur, muni de capsules de protection (C) elle aussi en plastique, contient et protège un corps en laiton (B), qui permet le raccordement au circuit hydraulique des composants extérieures à travers des joints (D) adaptables à tout produit IB Rubinetti sur le marché.

Features +

A handy and intuitive system, allowing the maximum performative efficiency and an easy implementation during assembly.

Un sistema comodo e intuitivo, che permette la massima efficienza performativa e una facile applicazione in fase di montaggio.

Un système pratique et intuitif qui permet la meilleure efficacité performative et une application simple en cours de montage.

+ QUICK INSTALLATION

Set up in just a few simple steps, it acts as a universal link for the connection to the hydraulic system.

INSTALLAZIONE RAPIDA
Installabile in poche semplici mosse, funge da tramite universale per l'allaccio all'impianto idraulico.
INSTALLATION RAPIDE
Installé en quelques étapes simples, il sert de lien universel pour la connexion au système hydraulique.

+ EFFICIENT

A unique product, of minimal dimensions and easy to install, which will make the bathroom design practical and fast.

EFFICIENTE
Un prodotto unico, di dimensioni minime e di facile installazione, che renderà la progettazione del bagno pratica e veloce.
EFFICACE
Un produit unique, de dimensions minimales et facile à installer, qui rendra la planification de la salle de bain pratique et rapide.

+ SAFE

The best safety standards are respected, in order to guarantee an efficient and reliable product.

SICURO
Sono rispettati i migliori standard di sicurezza per garantire un prodotto efficiente e affidabile.
SÉCURISÉ
Les meilleures normes de sécurité sont respectées pour garantir un produit efficace et fiable.

+ INTUITIVE

The intuitive device installation provides, in just a few simple steps, a ready-to-use connection support.

INTUITIVO
L'intuitiva installazione dell'apparecchiatura fornisce, in pochi semplici gesti, una base d'allaccio pronta all'utilizzo.
INTUITIF
L'installation intuitive de l'appareil fournit, en quelques étapes simples, une base de connexion prête à l'emploi.

+ EASY MAINTENANCE

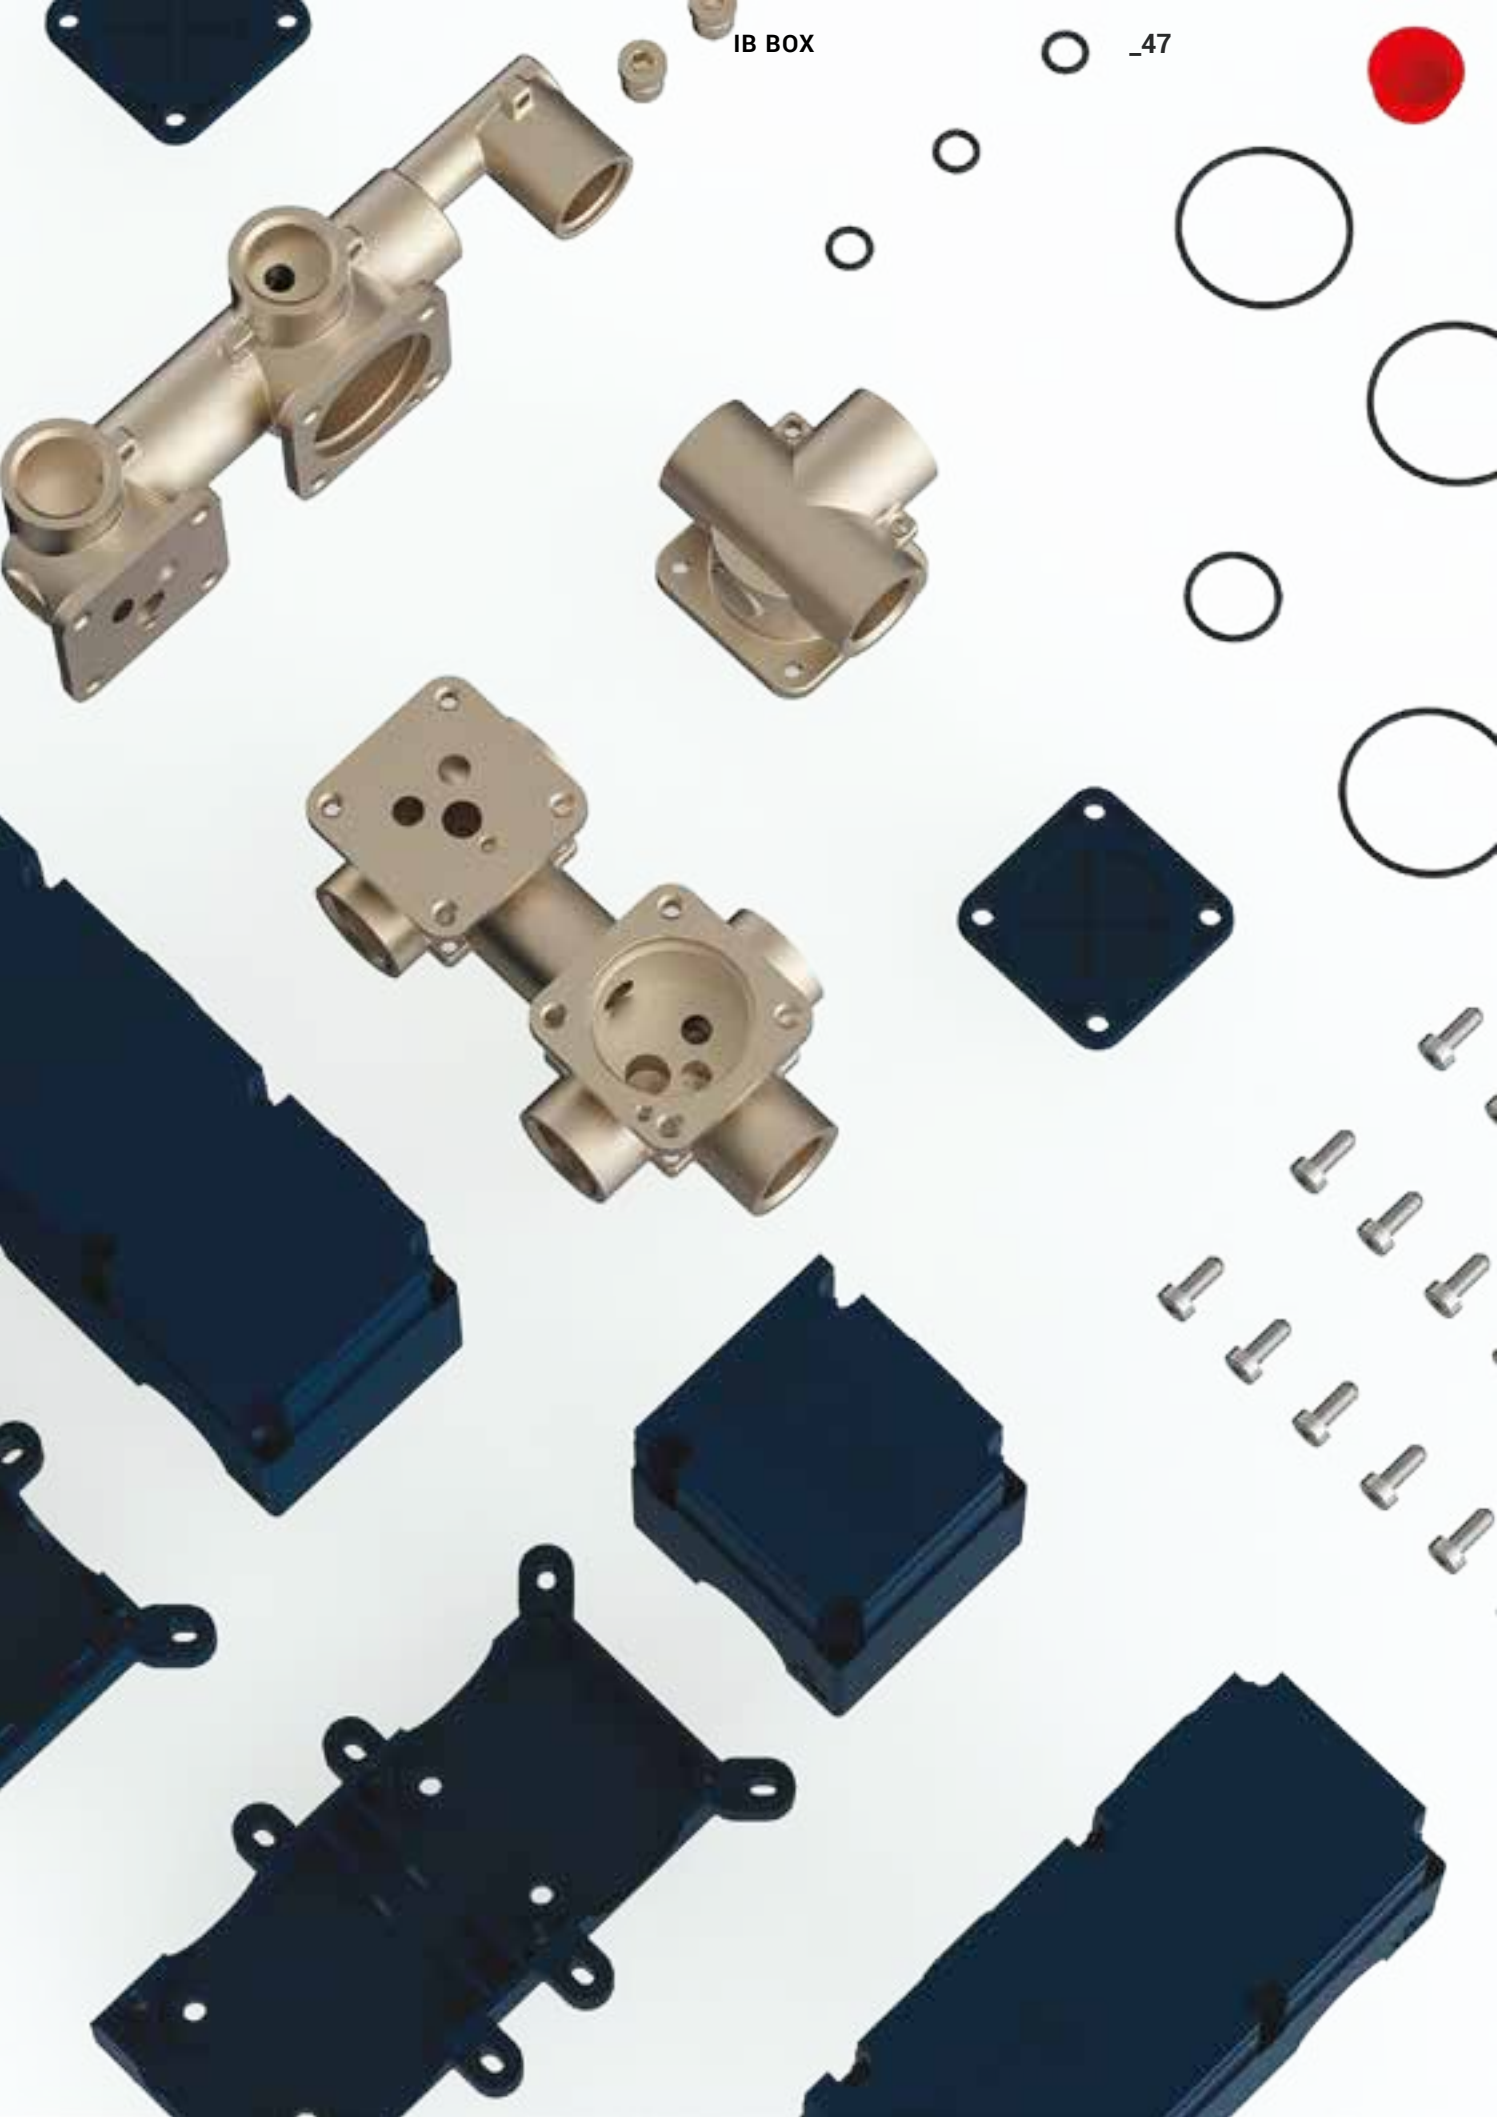
The single and compact structure ensures a convenient and rapid maintenance of the system.

MANUTENZIONE COMODA
La struttura singola e compatta assicura un sistema dalla manutenzione comoda e istantanea.
MAINTENANCE PRATIQUE
La structure unique et compacte garantit un système du maintien pratique et instantané.

+ IMMEDIATE AVAILABILITY

The universal system allows to keep a single body in stock for all collections, thus optimizing storage space and ensuring versatility in distribution.

DISPONIBILITÀ IMMEDIATA
Il sistema universale permette di tenere in magazzino un unico corpo per tutte le collezioni, ottimizzando così lo spazio di stoccaggio e garantendo versatilità nella distribuzione.
DISPONIBILITÉ IMMÉDIATE
Le système universel permet de garder en stock un seul corps pour toutes les collections, optimisant ainsi l'espace de stockage et garantissant versatilité dans la distribution.



The form follows the function

IB Box is not only content but also form, and guarantees multiple aesthetic advantages, exceptional in their simplicity.

IB Box non è solo contenuto ma anche forma, e garantisce dei vantaggi estetici formidabili nella loro essenzialità.

IB Box n'est pas que du contenu mais il est aussi forme, et il garantit des avantages esthétiques extraordinaires dans leur essentialité.

+ MINIMUM DIMENSION

The space occupied by the technical compartment is minimal, thus ensuring in its external controls a complete and self-contained product.

MINIME DIMENSIONI
Lo spazio occupato dal comparto tecnico è minimo, assicurando così nei comandi esterni un prodotto completo e contenuto nella forma.
DIMENSIONS MINIMALES
L'espace occupé par le département technique est minimal, assurant ainsi, dans les contrôles externes, un produit complet et de forme contenue.

+ SUPER-THIN PLATE

Not only the built-in part, but also the external plates have been redesigned in order to reduce their size, making them extremely thin, elegant and perfectly integrated with the surrounding environment.

PLACCA SUPERSOTTILE
Non solo la parte incassata, ma anche le placche esterne sono state riprogettate per diminuirne le dimensioni, rendendole estremamente sottili, eleganti e perfettamente integrate all'ambiente circostante.
PLAQUE SUPER-FINE
Non seulement la partie incorporé, mais également les plaques externes ont été repensées afin de réduire leur taille, ce qui les rend extrêmement fines, élégantes et parfaitement intégrées au milieu environnant.

+ COMPATIBILITY WITH EVERY COLLECTION

The universal system guarantees absolute compatibility with any IB Rubinetti collection, implementing new types of aesthetic plates adaptable to every series.

COMPATIBILITÀ CON TUTTE LE SERIE
Il sistema universale garantisce una compatibilità assoluta con qualsiasi collezione IB Rubinetti, implementando su di esse delle nuove tipologie di placche estetiche.
COMPATIBILITÉ AVEC TOUTES LES COLLECTIONS
Le système universel garantit une compatibilité absolue avec toutes les collections IB Rubinetti, à travers la mise en œuvre de nouveaux types de plaques esthétiques.

+ ENCOURAGING THE CREATIVE PROJECT

Thanks to its universal formula, it allows to unleash your creativity, satisfying every desire and freeing from the obligation to make the aesthetic choice during the technical installation.

ANIMA IL PROGETTO CREATIVO
Grazie alla sua formula universale permette di dare libero sfogo alla creatività, soddisfacendo ogni desiderio e liberando dall'obbligo di dover compiere la scelta estetica nel momento dell'installazione tecnica.
ANIMER LE PROJET CRÉATIF
Grâce à sa formule universelle, il permet d'assouvir librement la créativité, de satisfaire tout désir et de libérer de la nécessité de faire le choix esthétique lors de l'installation technique.

Simple but effective

In six simple steps, IB Box will be ready to ensure, immediately and in total safety, the essential support to all desires.

In sei semplici passi, IB Box sarà pronto ad assicurare, con immediatezza e in completa sicurezza, il supporto necessario a ogni desiderio.

En six simples étapes, IB Box sera prêt à assurer, avec promptitude et en toute sécurité, le support nécessaire à chaque désir.

The plastic case, which encloses and protects the brass heart, is directly secured to the rough plaster through a system of wall plugs.

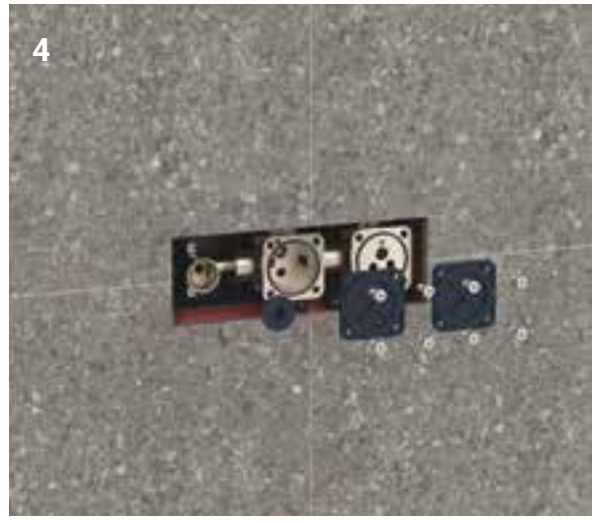
Il case in plastica, che racchiude e protegge il cuore in ottone, viene direttamente assicurato all'intonaco grezzo attraverso un sistema di viti tassello.
Le case en plastique, qui entoure et protège le cœur en laiton, est directement fixé au plâtre brut à l'aide d'un système de vis à cheville.

Once fixed, it is connected to the bathroom hydraulic system in a simple and intuitive way, especially thanks to the instructions directly reported on the case, providing all the essential information.

Una volta fissato, esso viene collegato al sistema idraulico del bagno in modo semplice e intuitivo, grazie anche alle istruzioni direttamente riportate sul case, che forniscono tutte le indicazioni necessarie.
Une fois fixé, il est branché au système hydraulique de la salle de bain de manière simple et intuitive, grâce aux instructions affichées directement sur le case, qui fournissent toutes les informations nécessaires.

After having connected it to the hydraulic system, it is possible to proceed to the masonry work. The material chosen to decorate the wall will cover the equipment, leaving only the front case visible.

Dopo averlo allacciato al sistema idraulico, si può procedere al lavoro di muratura. Il materiale scelto per ornare la parete andrà a coprire l'apparecchiatura, lasciando visibile solo il coperchio anteriore.
Après l'avoir connecté au système hydraulique, il est possible de procéder aux travaux de maçonnerie. Le matériau choisi pour décorer le mur couvrira le dispositif, en ne laissant visible que le couvercle antérieur.



Once the work is completed, IB Box will be ready to use: you will simply have to remove the plastic cover to find inside the brass heart, ready for installation, perfectly flush with the wall.

A lavori ultimati, IB Box sarà pronto per essere utilizzato: basterà sfilare la copertura in plastica per ritrovare all'interno, perfettamente a raso parete, il cuore in ottone necessario all'installazione del prodotto.
Une fois les travaux terminés, IB Box sera prêt à être utilisé: il suffira de enlever la couverture en plastique pour y trouver à l'intérieur le cœur en laiton nécessaire à l'installation du produit, parfaitement au ras du mur.

The body of IB Box will therefore act as a connection base, to be completed with all the required seals, depending on the type of IB Rubinetti product desired.

Il corpo di IB Box fungerà quindi da base di allaccio, da completare con tutti le guarnizioni necessarie a seconda della tipologia di prodotto IB Rubinetti desiderato.
Le corps de IB Box servira donc de base de connexion, à compléter avec tous les joints nécessaires, en fonction du type de produit IB Rubinetti souhaité.

The super-thin plaque will then easily cover the connections, guaranteeing an elegant product, delicate in its simplicity and lightness, always ready to satisfy all the creative desires and inspirations.

La placca supersottile andrà poi facilmente a coprire gli allacci, garantendo un prodotto elegante e delicato per la sua semplicità e leggerezza, sempre pronto a soddisfare tutte le esigenze e gli estri creativi.
La plaque ultrafine couvrira alors facilement les connexions, garantissant un produit élégant et délicat par sa simplicité et à sa légèreté, toujours prêt à satisfaire tout besoin et toute fantaisie créative.

BOLD
ROUND & LEVER

The faucet collection for character spaces.

La collezione di rubinetti per ambienti di carattere.
La collection de robinets pour les espaces de caractères.

Inspired by the traditional forms of the industrial faucet, the BOLD collection is marked by solid outlines and essential and functional forms, making it the better choice for spaces with strong features and personality. Available in ten different finishes and in two varieties of lever, Bold reinvents a regular design by capturing its essence and renovating it with the addition of little peculiar details, for a collection design bold like its name.

Ispirata alle forme tradizionali del rubinetto industriale, la collezione BOLD è contraddistinta da contorni robusti e forme essenziali e funzionali, che la rendono adatta ad ambienti dal forte carattere e dalla personalità decisa. Disponibile in dieci differenti finiture e in due varietà di leva, Bold reinventa un design consueto catturandone l'essenza e rinnovandola tramite l'aggiunta di piccoli particolari non ordinari, per un design audace come il suo nome.

Inspirée à les formes traditionnelles du robinet industriel, la collection BOLD se caractérise par des contours solides et des formes essentielles et fonctionnelles, qui la rendent apte aux environnements au caractère et personnalité forts. Disponible en dix finitions différentes et en deux typologies de poignée, Bold réinvente un design coutumier, en capturant son essence, en le renouvelant par l'adjonction de détails qui ne sont pas ordinaires et en créant ainsi un design audacieux comme son nom.

FEDERICO CASTELLI + ANTONIO GARDONI

The BOLD collection is the perfect combination of elemental elements reinterpreted in a contemporary way.

La collezione BOLD è la perfetta combinazione di elementi elementari, reinterpretati in chiave contemporanea.

La collection BOLD est la combinaison parfaite d'éléments élémentaires réinterprétés de façon contemporaine.

"We have been fascinated by the utilitarian design of industrial valves taps, their proportions and strong features have been a great source of inspiration. At the same time we wanted to counterbalance this heavy look with an extremely refined range of finishes spamming going from matte black to natural brass and an extremely precise knurl etching on the grip connection details.
The BOLD collection is the perfect combination of elemental elements reinterpreted in a contemporary way to suit a large spectrum of bathroom styles and a precise clear statement about water control.

Siamo rimasti affascinati dal design funzionale delle valvole industriali dei rubinetti, le loro proporzioni e il loro carattere deciso sono stati una fondamentale fonte di ispirazione. Allo stesso tempo, volevamo controbilanciare questo look duro con una gamma altamente raffinata di finiture, che spaziano dal nero opaco all'ottone naturale, e di zigrinature incise sui dettagli delle manopole.
La collezione BOLD è la combinazione perfetta di elementi elementari, reinterpretati in chiave contemporanea per adattarsi a un ampio spettro di stili, e una precisa dichiarazione d'intenti riguardo al controllo dell'acqua

Nous avons été fascinés par le design fonctionnel des valves de la robinetterie industrielle. Leurs proportions et leur caractère résolu ont été une grande source d'inspiration. En même temps, nous voulions contrebalancer ce heavy look avec l'ajoute d'une gamme de finitions extrêmement raffinées, allant du noir mat au laiton naturel, et de gravures moletées sur les détails des manettes.
La collection BOLD est la combinaison parfaite d'éléments élémentaires, réinterprétés de façon contemporaine pour s'adapter à un large éventail de styles, et une déclaration claire de nos intentions au sujet du contrôle de l'eau."

MARMO
/ MARMO L

Never can be two identical Marmo.

Non esisteranno mai due Marmo identici
Jamais il n'y aura deux Marmo identiques

A synthesis between eternity and current fashion, tradition and fantasy. The MARMO collection focuses on the quality of the raw material, carefully selected and processed in order to obtain a thin and resistant case, perfect in its cylindrical shape and original in its uniqueness.
The hand-made stone conceals inside an innovative compact mixer, which provides the highest technological performances in the slightest space.

Una sintesi di eternità e attualità, di tradizione e fantasia. La serie MARMO è incentrata sulla qualità della materia prima, attentamente selezionata e lavorata al fine di ottenere un involucro sottile e resistente, perfetto nella sua forma cilindrica e originale nella sua irripetibilità.
Lavorata a mano, la pietra nasconde al suo interno un miscelatore compatto innovativo, che in un minimo spazio fornisce le più alte performance tecnologiche.

Une synthèse entre éternité et modernité, tradition et fantaisie. La collection MARMO est axée sur la qualité de la matière première, soigneusement sélectionnée et traitée afin d'obtenir une enveloppe fin et résistante, parfaite dans sa forme cylindrique et originale dans sa unicité.
Ouvragée à la main, la pierre cache un mixeur compact innovant qui offre les meilleures performances technologiques dans le moindre espace.

DESIGN
FEDERICO CASTELLI + ANTONIO GARDONI

MARMO is a bathroom collection where the uniqueness of the stone and the unpredictable veins of the marble make every piece of the series unique: there can’t be two identical MARMO.

Marmo è una collezione di rubinetti che sfrutta l’unicità della pietra e le sue venature imprevedibili: non esistono due MARMO identici, ogni elemento della collezione è in modo naturale un pezzo unico.

MARMO est la collection pour la salle de bain où l’unicité de la pierre et les veines imprévisibles du marbre font de chaque unité un pièce unique : jamais ne pourrait-il y avoir deux Marmo identiques.

MARMO is the result between the combination of industrial processes and the know-how of the best Italian artisans translated in to simple geometric shapes enriched with the intrinsic aesthetic of the material. The series comprehends different elegant products designed in several finishes; the marble parts are produced in white Carrara and black Marquina while the metal elements are made out of brass in chrome, white, black, gold, brushed nickel and gold rose finishes. This makes MARMO satisfying different needs, styles and tastes.

MARMO nasce dall'unione tra innovazione tecnologica e artigianato tradotta in forme essenziali e geometriche arricchite dall'estetica intrinseca del materiale. MARMO è una linea di prodotti elegante disegnata in diverse finiture; le parti in marmo sono realizzate in bianco Carrara o nero Marquina, mentre gli elementi metallici sono in ottone con finitura cromo, bianco, nero, oro, nickel spazzolato e oro rosa. Questo rende MARMO versatile e adattabile a un ampio numero di ambienti.

MARMO est le résultat d'une combinaison entre la production industrielle et le meilleur savoir-faire artisanal italien, traduit dans des formes géométriques simples, enrichies par la seule esthétique intrinsèque au matériel. La série comprend plusieurs produits élégants, conçus en plusieurs finitions ; les éléments en marbre sont fabriquées en Carrara blanc et Marquina noir, alors que les éléments métalliques sont ornés de finitions en laiton chromé blanc, noir, or, nickel brossé et rose doré. Tout ces éléments permettent à MARMO de satisfaire les besoins, les styles et les goûts les plus variés.

INDUSTRIA

Play the game of combinations.

Gioca al gioco delle combinazioni.
Joue les jeux des combinaisons

Collection of great versatility and taste, INDUSTRIA combines some more traditional and linear forms with the charm of the knurls that enhance its shape. Available in eleven different finishes, applied to the body or to the details of the base, and accessible for the entire range of bathroom products, from the faucet to the bath, Industria leaves a wide space to personal invetivness, allowing the creation of unique combinations, for an original and fresh product.

Di grande versatilità e gusto, la collezione INDUSTRIA congiunge forme più tradizionali e lineari al fascino delle zigrinature che ne impreziosiscono la figura. Presente in undici finiture differenti, applicabili al corpo e ai dettagli della base, e disponibile per l'intera gamma di prodotti per bagno, dal lavabo al bordo vasca, Industria lascia ampio spazio all'estro personale, permettendo di realizzare combinazioni irripetibili, per un prodotto sempre inedito.

De grande versatilité et goût, la collection INDUSTRIA associe des formes plutôt traditionnelles et linéaires au charme des crénelages qui embellissent la silhouette. Disponible en onze finitions différentes, applicables au corps et aux détails de la base, et disponible pour toute la gamme de produits, du lavabo à la baignoire, Industria laisse large place à la créativité personnelle, permettant la création de combinaisons uniques, pour un produit inédit.

TAAAC

The round shape of square.

La forma tonda del quadrato.
La forme ronde du carré.

“Taaac, and it’s already done!” A versatile project designed to simplify forms and functions, TAAAC draws its inspiration from the immediate and friendly design of the most widespread technological appliances, from their hybrid and variable forms, never completely round or square. The collection also proposes to minimize the faucet structure, in order to provide only what is really essential. Thus TAAAC becomes a symbol of practical immediacy and aesthetical hybridity, through a highly recognisable look.

“Taaac, ed è subito fatto!”. Progetto versatile, volto a semplificare forme e funzioni, TAAAC prende ispirazione dal design immediato e affabile dei più diffusi apparecchi tecnologici, ispirandosi alle loro forme ibride e cangianti, mai completamente tonde né squadrate. La serie propone inoltre di ridurre al minimo le strutture del rubinetto, per fornire solo ciò di cui si ha veramente bisogno. TAAAC si fa così sinonimo di immediatezza funzionale e commistione di forme dall’alta riconoscibilità estetica.

“Taaac, et c’est déjà fait!” Projet éclectique visant à simplifier les formes et les fonctions, TAAAC s’inspire du design immédiat et aimable des appareils technologiques les plus connus, inspiré par leurs formes hybrides et changeantes, jamais complètement rondes ni carrées. La collection propose également de minimiser la structure du robinet pour ne pourvoir que ce qui est vraiment nécessaire. Ainsi, TAAAC devient un produit synonyme d’immédiateté fonctionnelle et de mélange de formes, à la forte identité esthétique.

Taaac

DESIGN
FEDERICO CASTELLI

It’s a collection of mixers with the idea of expressing a new universal and shared language in the bathroom context, simplifying shapes and interaction. It just makes things easy from many perspectives.

Una serie di rubinetti sintesi di un concept che ha come obiettivo stabilire un nuovo linguaggio universale e condiviso nell’ambiente bagno, semplificando forme, usi e funzioni.

C’est une collection de mitigeurs qui exprime un nouveau langage universel et partagé dans la salle de bain, en simplifiant forme et interaction. Elle facilite les tâches de nombreux points de vue.

“ ***TAAAC expresses the idea of simplification, both in shape and interaction within the bathroom context. The idea with TAAAC was to shape a product of universal and shared language fitting any room and style.***

TAAAC è sintesi di un concept che riduce al minimo forme, usi e funzioni nel mondo del bagno. L’obiettivo è dar forma a un prodotto dal linguaggio universale e condiviso, adatto a ogni ambiente e stile.

TAAAC se fait synthèse d’un concept visant à minimiser les formes, les usages et les fonctions dans le monde de la salle de bain. L’objectif est celui de concevoir un produit avec un langage universel et partagé, indiqué pour tous les espaces et les styles. ”

K2

Rounded and essential outlines is the language of elegance.

Contorni arrotondati ed essenziali sono il linguaggio dell'eleganza.
Les contours arrondis et essentiels sont le langage de l'élégance.

A faucet should give delightful sensations when used. K2 has a soft and pleasant shape. This contemporary collection is inspired to my style made of simplicity and clean features - it is very refined and pragmatic.
Rounded and essential outlines, which honour the elegant and sophisticated author's design, by soberly integrating in all kind of environment.

Un rubinetto dovrebbe dare sensazioni piacevoli quando lo si usa. K2 ha una forma morbida e gradevole. Questa collezione contemporanea si ispira al mio stile fatto di semplicità e linee pulite - è elegantissima e funzionale.
Tratti arrotondati ed essenziali, che mantengono tutta l'eleganza e la sofisticatezza del design d'autore, integrandosi sobriamente in tutti gli ambienti.

Un robinet devrait donner des sensations agréables lors de son utilisation.
K2 possède une forme douce et agréable. Cette collection contemporaine est inspirée par mon style, fait de simplicité et de lignes épurées. Elle est très élégante et fonctionnelle. Les traits arrondis et essentiels conservent toute l'élégance et la sophistication du design de l'auteure, en s'intégrant sobrement dans tout environnement.

K3

Sharp and essential outlines is the language of elegance.

Contorni netti ed essenziali sono il linguaggio dell'eleganza.
Les countours nets et essentiels sont le language de l'èlègance.

K3 incorporates the elegance and sobriety of the K2 twin collection, but with a slightly sharper cut, thanks to the square shapes at the base and in the lever that add a touch of unpredictability and character to a collection still recognizable for its refinement and its aesthetic measure.

K3 riprende l'eleganza e la sobrietà della linea gemella K2, ma con un taglio leggermente più deciso, dalle forme squadrate alla base e nella leva del rubinetto che aggiungono un tocco di imprevedibilità e carattere a un serie sempre riconoscibile per la sua eleganza e misura estetica.

K3 incorpore l'élégance et la sobriété de la ligne jumelle K2, mais avec une touche légèrement plus résolu, avec ses formes carrées à la base et au levier qui ajoutent une touche d'imprévisibilité et de caractère à une série toujours reconnaissable pour son élégance et sa mesure esthétique.

LOVEME

The spontaneous downpour of a small domestic waterfall.

Lo scrosciare spontaneo di una piccola cascata domestica.
Le crépitement spontané d'une petite cascade domestique.

To love means, first and foremost, to take care of oneself, starting from our daily home life. The LOVE ME collection enhances the free flow of water by replacing the directed jet with the spontaneous downpour of a small domestic waterfall. The water flows in a soft and natural outflow, like spouting directly from its source, thus combining aesthetic purity and genuine authenticity.

Amare significa anzitutto avere cura di sé, a partire dalla propria quotidianità casalinga. La serie LOVE ME esalta il flusso libero dell'acqua, sostituendo il getto direzionato con lo scrosciare spontaneo di una piccola cascata domestica. L'acqua scorre in un efflusso morbido e naturale, come sgorgando direttamente dalla sua fonte, coniugando così purezza estetica e genuina spontaneità.

Aimer, c'est d'abord prendre soin de soi-même, à partir de la vie quotidienne et domestique. La série LOVE ME glorifie le libre écoulement de l'eau en remplaçant le jet dirigé par le crépitement spontané d'une petite cascade domestique. L'eau s'écoule de manière douce et naturelle, comme si elle jaillissait directement de sa source, alliant ainsi pureté esthétique et spontanéité authentique.

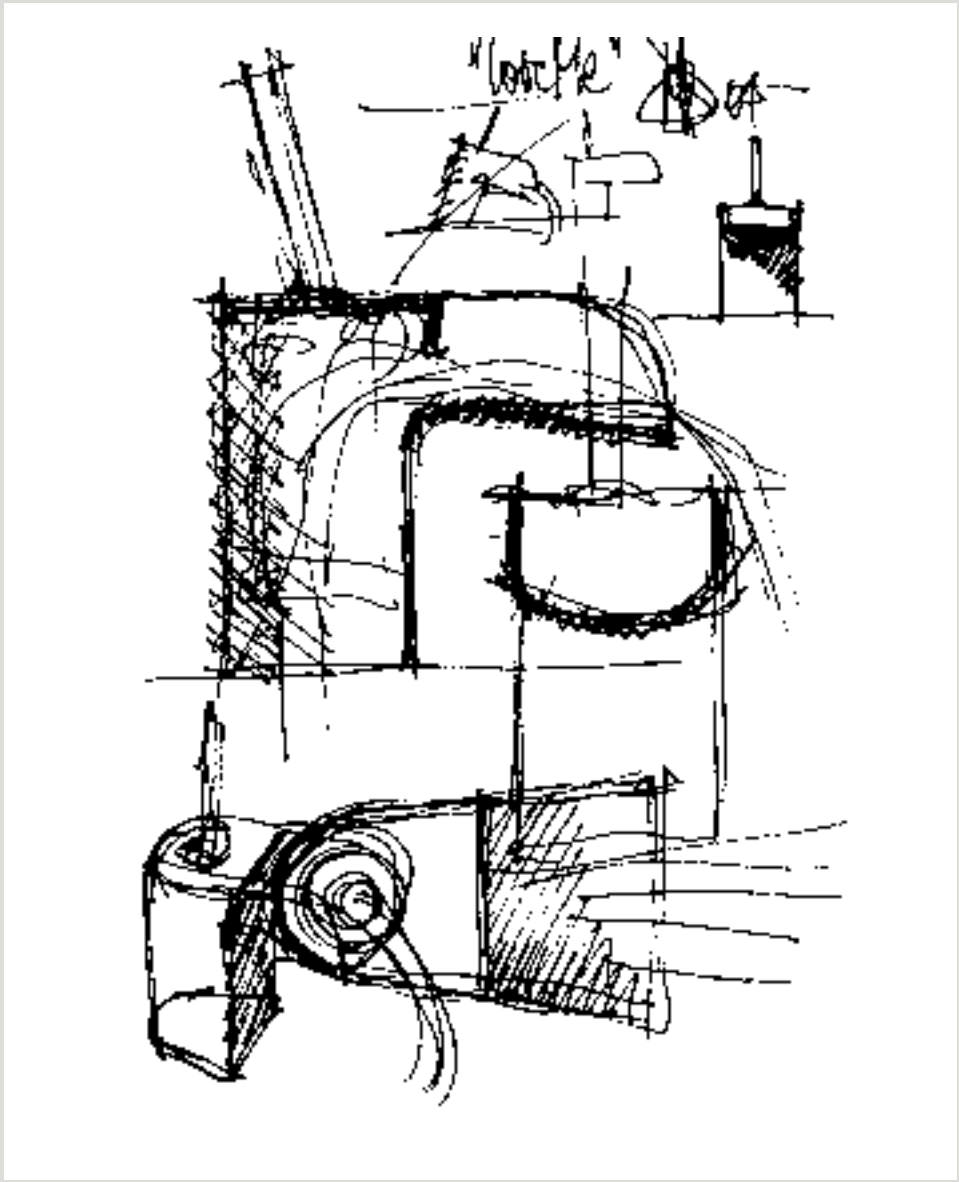
CASCADE

DESIGN
MAURIZIO DURANTI



Self-care through the pleasure of a small waterfall, a synonym for life.

La cura di sé tramite il piacere di una piccola cascata d'acqua, sinonimo di vita.

Soin de soi, à travers le plaisir d'une petite cascade, synonyme de vie.

"Loveme tell about my way of understanding design: narrative, simple, but also valuable and stimulating. Design must simultaneously create desires and satisfy functions. I find the English concept of "understatement" fascinating: the essence rather than the appearance, a low-key quality. Thus LOVE ME alludes to the more abstract concept of self-care through the pleasure of a small waterfall, a synonym for life. This collection, which is the one that gave me the biggest satisfaction and that gave birth to a new way of designing faucets. In hindsight, I think that LOVE ME is timeless.

Loveme racconta il mio modo di concepire il design: narrativo, semplice, ma anche prezioso e stimolante. Il design deve contemporaneamente creare desideri e soddisfare funzioni. Trovo affascinante il concetto inglese di "understatement": l'essenza più che l'apparenza, il sottotono di qualità. Così LOVE ME allude a un concetto più astratto, la cura di sé tramite il piacere di una piccola cascata d'acqua, sinonimo di vita. Questa è la serie che mi ha dato più soddisfazioni e che ha dato vita a un nuovo modo di concepire i rubinetti. Con il senno del poi, penso che LOVE ME sia senza tempo.

Loveme raconte ma façon de concevoir le design: narratif, simple, mais aussi précieux et stimulant. Le design doit simultanément créer des désirs et satisfaire des fonctions. Je trouve fascinant le concept anglais de "understatement": l'essence plutôt que l'aspect, le profil bas de qualité. Si LOVE ME fait allusion au concept plus abstrait du soin de soi, à travers le plaisir d'une petite cascade, synonyme de vie. C'est la série, celle qui m'a donné le plus de satisfaction et qui a créé une nouvelle façon de concevoir les robinets. Avec un peu de recul, je pense que LOVE ME est éternelle."

BELMONDO / ELLE

The sparkling elegance of the roaring Twenties and Thirties.

L'eleganza sfavillante dei ruggenti anni Venti e Trenta.
L'élégance étincelante des années rugissantes 1920 et 1930.

A collection inspired by the sparkling style of the roaring Twenties and Thirties, with its octagonal shapes that recall the stick figure of a diamond, with geometric and particularly sophisticated lines. This emblematic and refined collection, suitable for any domestic environment, is made even more versatile by the double set of levers available. The free-jet spout guarantees an immediate and spontaneous water flow.

Una serie ispirata allo stile sfavillante dei ruggenti anni Venti e Trenta, con le sue forme ottagonali che richiamano la figura stilizzata di un diamante, linee geometriche eleganti e tratti particolarmente sofisticati. Questa linea emblematica e raffinata, adatta a qualsiasi ambiente casalingo, è resa ulteriormente versatile dalla disponibilità di una doppia leva. La bocca a getto libero garantisce un flusso d'acqua immediato e spontaneo.

Une collection inspirée par le style étincelant des années folles 1920 et 1930, avec ses formes octogonales qui rappellent la silhouette stylisée d'un diamant, avec ses lignes géométriques élégantes et ses traits particulièrement sophistiquées. Cette collection emblématique et raffinée, apte à tous les environnements domestiques, est rendue encore plus polyvalente par la disponibilité d'un double levier. Le bec au jet libre garantit un débit d'eau immédiat et spontané.

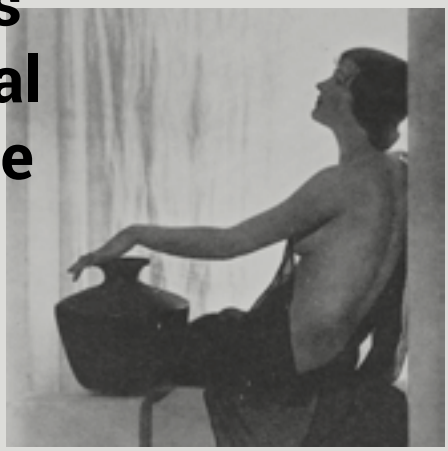
DESIGN
MAURIZIO DURANTI

The name refers to the “beautiful world” of the Twenties and the Thirties, to the luxurious houses of those times, with real bathrooms and multiple fragrances.



Il nome si riferisce al “bel mondo” degli anni Venti e Trenta, a quelle case lussuose dell’epoca con vere stanze da bagno e tanti profumi.

Le nom fait référence au «monde magnifique» des années 1920 et 1930, à ces maisons luxueuses de l’époque, avec des vraies salles de bains et des nombreux parfums.

“Through this project I wanted to go deep inside the culture of the period between the two world wars, inspiring myself above all to Jean Puiforcat, French artist and designer who worked during those years.
Even if it reminds to sophisticated cultural atmosphere from that age, these objects are still deeply original and they don’t concern with imitation styling.

Ho voluto fare un’immersione culturale nel raffinato design del periodo fra le due guerre, ispirandomi liberamente, soprattutto alla figura di Jean Puiforcat, artista e designer francese operante in quegli anni. Pur rimandando ad atmosfere di sofisticato lusso di certi ambienti culturali di quell’epoca, tuttavia questi oggetti restano sempre appartenenti ad un ambito di originalità progettuale che non sconfina mai in styling d’imitazione.

À travers ce projet, j’ai voulu aller au cœur de la culture de l’entre-deux-guerres, en m’inspirant avant tout de Jean Puiforcat, artiste et designer français de ces années.
Même s’ils évoquent l’ambiance culturel sophistiqué de ces années, ces objets demeurent quand même profondément originaux, peu intéressés à un style d’imitation.”

WAVE

Sinuous and rounded shapes, providing pleasure and a touch of surprise.

Forme sinuose e arrotondate che regalano piacere e un tocco di sorpresa.
Formes sinueuses et arrondies qui donnent plaisir et une touche de surprise.

Sinuous and rounded shapes, interspaced with more angular lines on the top, providing emotions, pleasure and a touch of surprise. The WAVE collection is a perfect balance between functionality and style, and testifies Marco Acerbis' approach to design. The sinuous body of the faucet is opposed to the resolute and pronounced lines of the lever just above, with a slightly inclined aerator to avoid splashing. The form becomes function and the function becomes form, in an unusual and exciting harmony.

Forme sinuose e arrotondate, intervallate da linee più squadrate nella parte superiore, che regalano emozione, piacere e un tocco di sorpresa.
La serie WAVE è un perfetto equilibrio tra funzionalità e stile, e testimonia l'approccio di Marco Acerbis al design. Il flessuoso corpo del rubinetto lascia il posto poco più in alto ai tratti decisi e prominenti della leva e a un aeratore leggermente inclinato per evitare gli schizzi. La forma diventa funzione e la funzione si fa forma, in un bilanciamento inusuale e stimolante.

Formes sinueuses et arrondies, entrecoupées par des lignes plus carrées au sommet, qui donnent émotion, plaisir et une touche de surprise. La collection WAVE est un équilibre parfait entre fonctionnalité et style, et elle est témoin de l'approche de Marco Acerbis au design. Le corps sinueux du robinet laisse la place aux traits résolus et saillants du levier juste au-dessus, et à un aérateur légèrement incliné pour éviter les éclaboussures. La forme devient fonction et la fonction devient forme, dans un équilibre inédit et stimulant.

Wave

DESIGN
MARCO ACERBIS

“ **The WAVE faucet, with its curvy and square shapes, fully attests my approach to design: the constant search for the perfect balance between the function, inherent in the object, and the aesthetic element, which must be able to excite and surprise.**

Il rubinetto WAVE, con le sue forme a tratti sinuose e squadrate, testimonia appieno il mio approccio al design: la costante ricerca del perfetto equilibrio tra funzione, connaturata all’oggetto, e componente estetica, che deve saper emozionare e sorprendere.

Le robinet WAVE, aux formes sinueuses et carrées au même temps, témoigne pleinement mon approche au design: la recherche constante d’un équilibre parfait entre la fonction inhérente à l’objet et la composante esthétique, qui doit exciter et surprendre. ”

TWITTER

The bathroom collection that speaks to everyone.

TWITTER è la linea bagno che parla a tutti.
TWITTER est la ligne qui s'adresse à tous.

With its simple and delicate shapes, TWITTER is the bathroom collection that speaks to everyone, to the lovers of square lines as to those of the round forms, and it strikes for its essential refinement and delicate aesthetics. With its pleasing linear features, Twitter is the perfect collection for an sober and elegant bathroom.

Dalle forme semplici e delicate, TWITTER è la linea bagno che parla a tutti, agli amanti del tratto squadrato come a quelli della forma arrotondata, e colpisce per la sua essenziale ricercatezza e delicatezza estetica. Con le sue fattezze piacevoli e lineari, Twitter è la serie perfetta per un bagno sobrio ed elegante.

Avec ses formes simples et délicates, TWITTER est la ligne qui s'adresse à tous, aux amants de la ligne carrée comme à ceux de la forme arrondie, et frappe pour son raffinement essentiel et sa délicatesse esthétique. Avec ses formes agréables et linéaires, Twitter est la série parfaite pour une salle de bain sobre et élégante.

SUPERBOX

It make even the simplest and everyday gesture funny and thrilling.

Rende divertente e stimolante anche il gesto più semplice e quotidiano.
Il rend amusants et stimulants même les gestes les plus simples et quotidiens.

There are simple faucets, and then there's Supebox. This collection is able to make even the simplest and everyday gesture funny and thrilling. An innovative and exciting joystick lever steers the water pouring, just like a video game. The absence of an aerator allows the water to flow neatly and sharply from the spout, as fast as a superhero's blade.

Esistono dei semplici rubinetti, e poi c'è Supebox. Questa linea rende divertente e stimolante anche il gesto più semplice e quotidiano. La fuoriuscita dell'acqua è pilotata da una leva a joystick innovativa e appassionante, proprio come un videogioco. L'assenza di aeratore permette all'acqua di fluire dalla bocca in maniera decisa e tagliente, veloce come la lama di un supereroe.

Il y a des robinets simples, et puis il y a Supebox. Cette collection rend amusants et stimulants même les gestes les plus simples et quotidiens. L'écoulement d'eau est piloté par un levier joystick innovateur et passionnant, à la manière d'un jeu vidéo. L'absence d'aérateur permet à l'eau de s'écouler de la bouche de façon résolue et nette, aussi rapide que l'épée d'un super-héros.

MILANOTORINO

Simple and versatile shapes as a trait of strength and identity without equal.

Forme semplici e versatili come tratto di forza e identità senza eguali.
Formes simples et polyédriques un trait de force et d'identité sans égaux.

Two great eclectic cities, two Italian cultural and economical capitals, two original and a little bit crazy souls, joined in the name of a famous cocktail with a strong and uncompromised flavour. From the name of the aperitif with an intense character and flavour, the vigorous and audacious MILANOTORINO collection is born, whose versatility becomes a trait of strength and identity without equal.

Due grandi città eclettiche, due capitali della cultura e dell'economia italiana, due anime originali e un poco pazze, unite nel nome di un famoso cocktail dal sapore forte e senza compromessi. Dal nome dell'aperitivo dal carattere e dal sapore intensi, nasce una collezione vigorosa e audace, che fa della sua poliedricità un tratto di forza e di identità senza eguali.

Deux grandes villes éclectiques, deux capitales de la culture et de l'économie italiennes, deux âmes originales et un peu folles, réunies dans le nom d'un célèbre cocktail à la saveur résolue et sans compromis. Du nom de l'apéritif au caractère et à la saveur intenses est née une collection vigoureuse et audacieuse, qui fait de son essence polyédrique un trait de force et d'identité sans égaux.

BATLÒ

The reference is the archetype, the shape of the bottle.

Il riferimento è l'archetipo, la forma della bottiglia.
Le point de repère est l'archétype, la forme d'une bouteille.

The collection is inspired by the traditional form of the most iconic and sinuous liquid container, a bottle of water. The lever control, corresponding to the narrow neck of the bottle, allows a soft and vertical closing and opening of the water flow. The fluidity and the intuitive identity of the form is applied to the entire collection, which ranges from the ceiling washbasin mixer to the free-standing bath filler.

La serie è ispirata alla tradizionale forma di una bottiglia d'acqua, contenitore di liquidi sinuoso e iconico. Il comando di erogazione, corrispondente al restringimento del collo della bottiglia, permette un movimento di chiusura e apertura del flusso d'acqua morbido e verticale. La fluidità e l'intuitiva riconoscibilità della forma si estendono alla ricca collezione, che spazia dal lavabo mixer e a soffitto, fino al bordo vasca free-standing.

La collection s'inspire de la forme traditionnelle d'une bouteille d'eau, récipient de liquide sinueux et emblématique. La poignée de commande, correspondant au resserrement du col de la bouteille, permet un mouvement de fermeture et d'ouverture de l'eau doux et vertical. La fluidité et la notoriété intuitive de la forme concernent à l'entière riche collection, qui va du lavabo mixer à plafond jusqu'au bord free-standing de la baignoire.

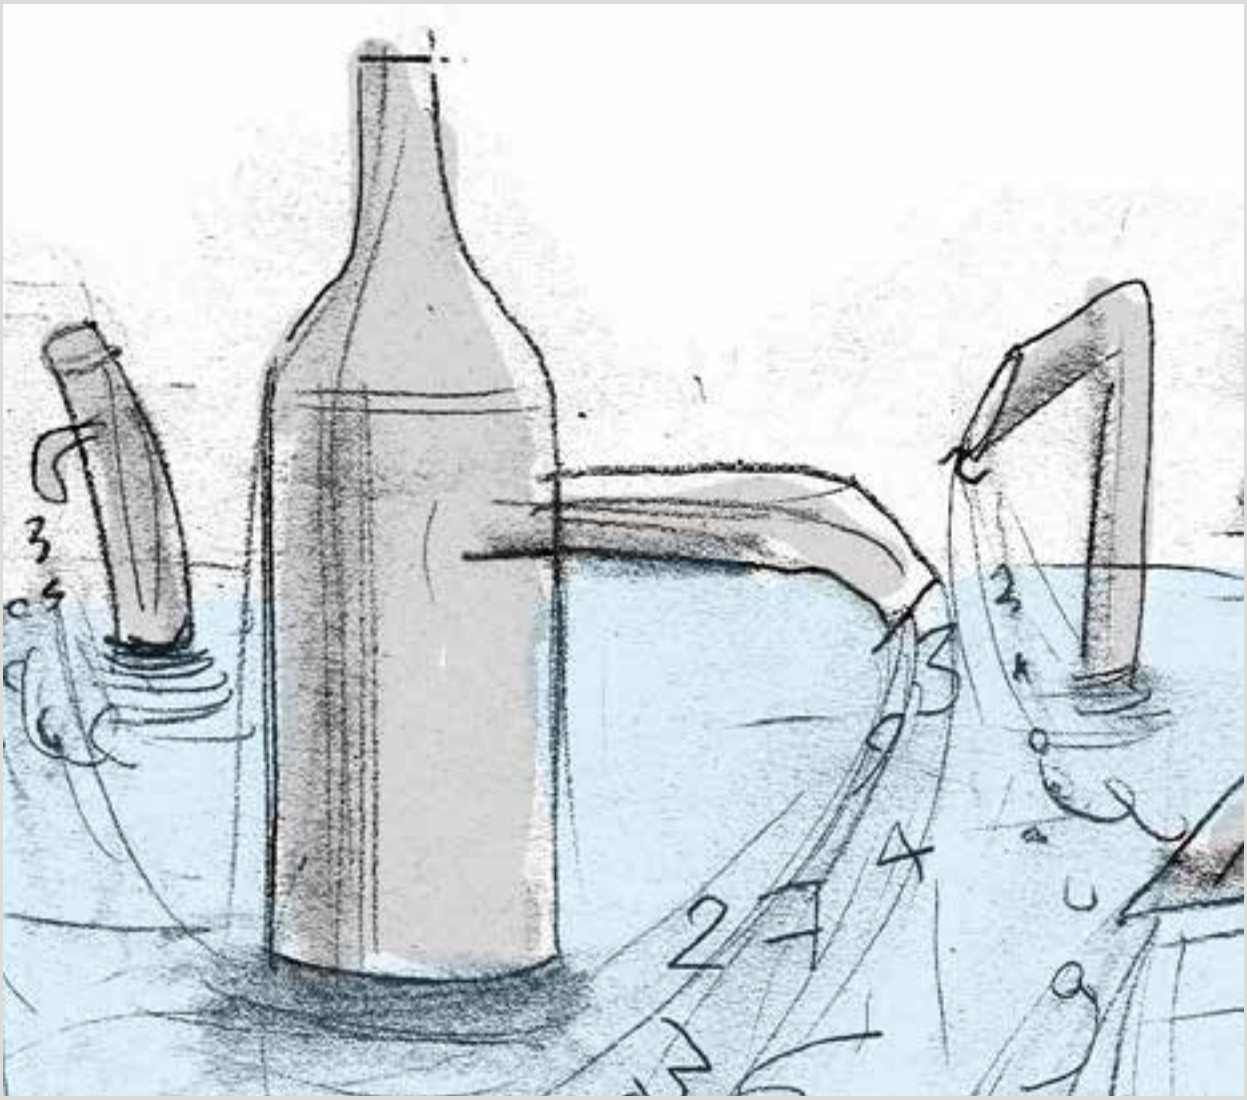
DESIGN
GIULIO IACCHETTI



I like the idea that, only by watching the objects I designed, it’s easy to connect them to the function they are appointed to perform.

Batlò

Mi piace l’idea che guardando gli oggetto che disegno sia semplice ricondurli alla funzione che sono chiamati a compiere.

J’aime l’idée qu’il soit facile, juste en regardant les objets que j’ai conçu, de les ramener à la fonction qu’ils sont appelés à exécuter.

“Having to design a new faucet, I was inspired by the form of a bottle, the container for liquids par excellence ... for the handles I designed some inverted goblets and the shower is an umbrella handle!... It’s still water, isn’t it?!

Dovendo progettare un nuovo rubinetto ho pensato alla bottiglia, contenitore per eccellenza di liquidi… per le manopole ho disegnato dei calici rovesciati e la doccia è il manico di un ombrello!… sempre di acqua si tratta no?!

Devant concevoir un nouveau robinet, j’ai pensé à une bouteille, le récipient de liquides par excellence... pour ce qui concerne les manettes, j’ai conçu des verres renversés et la douche est le manche d’un parapluie!... il s’agit quand même d’eau, n’est-ce pas?!”

ONLYONE

Simplify everything in a single gesture.

Semplificare tutto in un unico gesto.
Simplifiez tout à travers un seul geste.

Innovation begins with the discovery of ancient forms for new purposes. In ONLY ONE, the features of a traditional tube, as a typical industrial water container, shape a new product with a traditional and yet original design.
Innovation also means to combine aesthetics and high practicality: that's why ONLY ONE focuses on a fast and simple gestural action, enabling to open and direct the water flow with just one hand, thus creating the effect of a small man-operated waterfall.

L'innovazione parte dalla riscoperta di antiche forme per nuovi utilizzi.
In ONLY ONE, le fattezze di un tubo, tradizionale contenitore industriale d'acqua, modellano un nuovo prodotto, dal design tradizionale e al contempo originale.
Innovazione significa anche affiancare estetica e alta funzionalità: ecco perché ONLY ONE punta su una gestualità veloce e semplice, che con una sola mano permette di aprire e direzionare il flusso d'acqua, creando l'effetto di una piccola cascata manovrata dall'uomo.

L'innovation commence par la redécouverte de formes anciennes pour des nouveaux usages. Dans ONLY ONE, les formes d'un tuyau, le traditionnel réservoir d'eau industriel, façonnent un nouveau produit au design à la fois traditionnel et original. Innovation c'est aussi allier esthétique et haute fonctionnalité: c'est pourquoi ONLY ONE se concentre sur une gestualité simple et rapide qui, d'une seule main, ouvre et dirige l'écoulement d'eau, créant ainsi l'effet d'une petite cascade manœuvrée par l'homme.

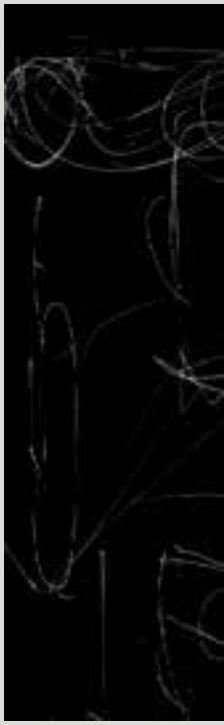
DESIGN
LORENZO DAMIANI

“ **With this product, I wanted to go back to the archetype of water distribution: a simple tube (originally a hose), from which water flows without technological mediations. The innovation lies in water management, where the whole body becomes the handle.”**



Con questo prodotto ho voluto ritornare all’archetipo della distribuzione dell’acqua: un semplice tubo (all’origine canna) dal quale sgorga senza mediazioni tecnologiche. L’invenzione sta nella gestione dell’acqua dove tutto il corpo diventa maniglia.

Avec ce produit, j’ai voulu revenir à l’archétype de la distribution de l’eau: un tube simple (à l’origine une tuyau d’arrosage) duquel elle jaillit sans médiation technologique. L’innovation concerne la gestion de l’eau, du moment que le corps entier du robinet devient la poignée de commande. ”

RUBACUORI

The sober lines of the square give shape to full and empty volumes.

Le sobrie linee del quadrato danno forma a volumi pieni e vuoti.
Les lignes sobres du carré façonnent des volumes pleins et vides.

A sober and essential line, suitable for modern bathrooms with a strong character. RUBACUORI is able to seduce everyone with its geometric shapes, always in vogue. In addition to the traditional lever, cohesive with the clean forms of the body, two other levers are also available: Bark, which breaks the square lines by adding a small rounded concavity at the end of the lever, and Dr. Jekyll, lighter and more lively, defined only by its outlines.

Una linea sobria ed essenziale, adatta a bagni moderni dal carattere deciso. RUBACUORI è il rubinetto capace di conquistare tutti con le sue forme geometriche sempre in voga. Oltre alla leva tradizionale, coesa alle forme pure del corpo, sono anche disponibili le leve Bark, che rompe le linee squadrate tramite l'aggiunta all'estremità di una piccola insenatura dalla forma arrotondata, e Dr. Jekyll, più leggera e vivace, definita dai soli contorni.

Une ligne sobre et essentielle, adaptée aux salles de bain modernes au caractère résolu. RUBACUORI est le robinet capable de conquérir tout le monde avec ses formes géométriques toujours en vogue. Par delà du levier traditionnel, cohérent avec les formes pures du corps, sont également disponibles les leviers Bark, qui rompt avec les lignes carrées en ajoutant à l'extrémité une petite anse arrondie, et Dr. Jekyll, plus léger et vif, défini seulement par ses contours.

HEY JOE!

It excites the eye and the imagination just like the Jimi Hendrix’s guitar solos.

Stuzzica l’occhio e la fantasia proprio come gli assoli di chitarra di Jimi Hendrix.
Il excite à la fois le regard et l’imagination, exactement comme les solos de Jimi Hendrix.

Iridescent to the touch and built on the contrast between a strongly characterized body and a sinuous and thin lever, HEY JOE! is a versatile collection, with a strong and elusive line, which excites the eye and arouses the imagination just like the powerful and ephemeral Jimi Hendrix’s guitar solos, to whom the collection pays tribute.

Cangiante al tatto e costruita sul contrasto tra una base dal carattere deciso e una leva sinuosa e sottile, HEY JOE! è una collezione versatile, dal tratto forte ed elusivo, che stuzzica l’occhio e la fantasia proprio come gli assoli di chitarra di Jimi Hendrix, potenti ed effimeri, a cui il nome della serie rende omaggio.

Changeant au toucher et construit à partir du contraste entre une base au caractère fort et un levier sinueux et fin, HEY JOE! est une collection polyvalente, avec une ligne forte et élusive, qui excite à la fois le regard et l’imagination, exactement comme les solos de guitare puissants et éphémères de Jimi Hendrix, à qui le nom de la collection rend hommage.

DESIGN
MAURIZIO DURANTI

“ **At 3 o’ clock in the night, even the true things seem false and ephemeral. I was thinking about this, while Hendrix was throwing the guitar solos of Hey Joe, and it was as if he was saying, without arrogance: from now on this is the way to play!**

Alle 3 del mattino, persino le cose vere sembrano false ed effimere. Stavo pensando a questo quando Hendrix stava suonando la chitarra nell’assolo di Hey Joe, ed era come se lo stesse dicendo, senza arroganza: d’ora in poi questo è il modo di suonare!

À 3 heures du matin, même les choses les plus vraies paraissent fausses et éphémères.
Je pensais à cela, pendant que Hendrix lançait sa guitare dans les solos de Hey Joe, et c’était comme s’il disait, sans arrogance: à partir de ce moment, il faut jouer comme ça! ”

Maurizio Duranti design for HEY JOE!

WOW

A classic can be amazing always and everywhere.

Un classico è capace di stupire sempre e ovunque.
Un classique demeure incroyable toujours et partout.

If you like something, you don’t change it, at most you can only improve it. WOW is a modern reinterpretation of a bathroom design icon. The modernity of the slim clean forms is integrated respecting the classic and elegant taste that distinguishes this emblematic product, since a classic cannot be touched, but only respected in its aptitude to amaze always and everywhere.

Se qualcosa ti piace non lo cambi, al massimo lo migliori. WOW è un’interpretazione in chiave odierna di un’icona del design per il bagno. La modernità delle forme slanciate e pulite si innesta nel rispetto del gusto classico ed elegante che contraddistingue questo prodotto emblematico. Perché un classico non si tocca, lo si rispetta nella sua capacità di stupire sempre e ovunque.

Si on aime quelque chose on ne va pas le changer, au plus on cherche à l’améliorer. WOW est une interprétation actuelle d’une icône du design pour la salle de bain. La modernité des formes élancées et nettes se greffe sur le goût classique et élégant qui caractérise ce produit emblématique. Parce qu’un classique ne peut pas être touché, il doit être respecté dans sa capacité d’émerveiller toujours et partout.

BIRKIN

Diamonds are a girl’s best friends.

I diamanti sono i migliori amici di una ragazza.
Les diamants sont les meilleurs amis d’une fille.

From the name of a 1970s fashion icon, the BIRKIN collection pays tribute to this inspiring muse through a range of products that recall her elegance and strong personality. Birkin offers two selections of spout, simple or engraved with wooden decorations, and three levers, in Swarovski crystal, white Carrara marble or black Marquinia marble, in order to enhance luxurious bathrooms with strong personality through unique and elegant materials.

Dal nome di un’icona dell’eleganza anni Settanta, la collezione BIRKIN omaggia questa musa ispiratrice attraverso una gamma di prodotti che ne richiamano l’eleganza e la decisa personalità. Birkin offre due gamme di bocche, semplice o incisa con decorazioni lignee, e tre leve, in cristallo Swarovski, marmo bianco di Carrara o marmo nero di Marquinia, a impreziosire con materiali unici ed eleganti dei bagni sfarzosi, dotati di forte personalità.

Du nom d’une icône de l’élégance des années 1970, la collection BIRKIN rend hommage à cette muse inspiratrice à travers une gamme de produits qui en rappellent l’élégance et la forte personnalité. Birkin offre deux gammes de becs, simple ou gravée avec des décorations en bois, et trois leviers, en cristal Swarovski, en marbre blanc de Carrare ou en marbre noir de Marquinia, qui embellissent, avec des matériaux uniques, des salles de bain luxueuses à la forte personnalité.

HERMES
/ HERMES ELLE

The true classic will be current even in a hundred years.

Il vero classico è sempre attuale anche dopo cent'anni.
Le vrai classique sera d'actualité même dans cent ans.

True eternal classic of faucet design, Hermes recaptures and enhances the traditional forms of the faucet, providing a familiar decorative element, adaptable to both classic and contemporary settings. The wide range of products, especially in the rich shower section, is completed by two different levers, a more baroque and traditional one, and another with more feminine and delicate features.

Vero classico eterno del design di rubinetti, Hermes riprende e arricchisce le forme tradizionali del rubinetto, fornendo un elemento decorativo familiare, adattabile ad ambienti sia classici che contemporanei. La vasta gamma di prodotti, soprattutto nella ricca sezione doccia, è completata da due differenti leve, dal tratto più barocco e tradizionale o dalle fattezze più femmine e delicate.

Véritable classique du design des robinets, Hermes capture et enrichit les formes traditionnelles du robinet, en fournissant un élément décoratif familier, adaptable tant aux environnements classiques qu'à ceux plus contemporains. La vaste gamme de produits, en particulier dans la riche section douche, est complétée par deux leviers différents, l'un avec une touche plus baroque et traditionnelle, l'autre avec des traits plus féminins et délicats.

KUSASI
/ KUSASI SHORT

A small wave that interrupt the straight trait.

Una piccola onda che interferisce interrompendo la linea retta.
Une petite onde qui interfère en interrompant la ligne droite.

A fragmented line, a small wave that interferes interrupting the straight trait: the Kusasi collection represents the contrast between a squared and linear volume and a curvilinear rebel detail, that interrupts its geometry by softening it. The traditional lever can be replaced by a shorter one, accentuating the sinuous wavy features.

Un tratto non lineare, una piccola onda che interferisce interrompendo la linea retta: la collezione Kusasi rappresenta il contrasto tra un volume squadrato e lineare e un particolare curvilineo ribelle, che ne interrompe la geometria, ammorbidendola.
La leva tradizionale può essere sostituita da una più corta, ad accentuare il sinuoso tratto ondivago.

Un trait non linéaire, une petite onde qui interfère en interrompant la ligne droite: la collection Kusasi représente le contraste entre un volume carré et linéaire et un détail curviligne rebelle, qui interrompt sa géométrie et l'adoucit. Le levier traditionnel peut être remplacé par un levier plus court, pour accentuer la sinueuse ligne ondulée

POWA

The smartest and most intuitive electronic faucets we’ve ever designed.

I rubinetti elettronici più Intuitivi e intelligenti che abbiamo mai progettato.
Les robinets électroniques les plus intuitifs et intelligents que nous ayons jamais conçus

The POWA collection offers a range of four electronic mixers, washbasin or wall mounted washbasin, capable of combining technology and high functionality. By reducing water consumption thanks to its infrared electronic controls, the POWA collection makes its faucets perfect for all the public and commercial spaces.

La collezione POWA offre una gamma di quattro miscelatori elettrici, capaci di combinare innovazione tecnologica e alta funzionalità. Riducendo i consumi idrici grazie a comandi elettronici a infrarossi, la collezione POWA rende i suoi rubinetti perfetti per tutti gli spazi, privati e commerciali.

La collection POWA propose une gamme de quatre mitigeurs électroniques, lavabo ou lavabo mural, capables de combiner technologie et haute fonctionnalité. En réduisant la consommation d’eau grâce aux commandes électroniques infrarouges, la collection POWA rend ses robinets parfaits pour tous les espaces, publiques et commerciaux.

BYE BYE

Born to make a difference.

Progettato per fare la differenza.
Conçu pour faire la différence.

The BYE BYE cover plates are a perfect mix of efficiency and refinement. Compatible with the UP720 / Sigma 8 and UP320 / Sigma13 toilet tanks and equipped with a double water flush, they can be customized in thirteen finishes matching the faucet collections, for a flawless elegance in your bathroom.

Le placche BYE BYE sono un mix perfetto di efficacia e ricercatezza. Compatibili con le cassette UP720 / Sigma 8 e UP320 / Sigma13 e dotate di scarico con doppio volume d'acqua, sono personalizzabili in tredici finiture coordinate alle collezioni rubinetti, per un bagno impeccabile nella sua eleganza.

Les plaques BYE BYE allient parfaitement l'efficacité au raffinement. Compatibles avec les réservoirs de chasse UP720 / Sigma 8 et UP320 / Sigma13 et équipées de double débit d'eau, elles peuvent être personnalisées en treize finitions, coordonnées aux collections de robinets, pour une salle de bains d'une élégance impeccable.

AQUA

The latest generation thermostatic valves collection.

La collezione di valvole termostatiche di ultima generazione.
La collection de vannes thermostatiques de dernière génération.

AQUA is a new-generation collection of high-performance thermostats, which guarantees perfect temperature and jet controls thanks to its universal built-in bodies. The result of an innovative evolution, Aqua technology is now applied to complex shower systems, through an array of products that ranges from the two-way and three-way diverters to the one-way to five-way independent controls, for an autonomous and simple handling.

AQUA è una collezione di nuova generazione di termostatici ad alte prestazioni, che grazie a corpi incasso universali garantisce il perfetto controllo della temperatura e dei comandi doccia. Frutto di un'evoluzione innovativa, la tecnologia Aqua è ora al servizio di impianti doccia complessi, grazie a una gamma di prodotti che spazia da due deviatori, a due e a tre vie, fino ai comandi indipendenti da una a cinque vie, per una gestione autonoma e semplice.

AQUA est une collection de thermostatiques à haute performance de nouvelle génération qui, grâce à ses corps encastrés universels, assure un contrôle parfait de la température et des commandes douche. Fruit d'une évolution innovante, la technologie Aqua est à présent au service d'installations hydrauliques complexes, grâce à une gamme de produits allant de deux déviateurs, bidirectionnel et tridirectionnel, jusqu'aux commandes indépendants d'un à cinq voies, pour une gestion autonome et simple.

Features.

Caratteristiche.
Caractéristiques.

1 HIGH FLOW

High flow 3/4″ thermostatic cartridge. Flow rate: 45 liters per minute at 3 bars.

ALTA PORTATA
Cartuccia termostatica 3-4″ ad alta portata. Velocità del flusso: 45 litri al minuto a 3 bar.
HAUT DÉBIT
Cartouche thermostatique 3-4″ à débit élevé. Vitesse du débit: 45 litres par minute à 3 bars.

2 UNIVERSAL

Universal inlets for 1/2″ and 3/4″ connections (built-in adaptors: female threads for 1/2″ connections and male threads for 3/4″)

UNIVERSALE
Prese universali per attacchi da 1-2″ e 3-4″ (adattatori a incasso: connettore femmina per attacchi da 1-2″ e maschio per 3-4″).
UNIVERSEL
Prises universelles pour connexions de 1-2″ et 3-4″ (adaptateurs encastrés: connecteur femelle de 1-2″ et connecteur mâle de 3-4 ″)

3 REVERSIBLE

Reversible service check valves with filters and improved stop mechanism.

REVERSIBILE
Valvole di ritegno reversibili con filtri e meccanismo di bloccaggio ottimizzati.
RÉVERSIBLE
Clapets de retenue réversibles avec filtres et mécanisme de blocage perfectionné.

4 FINISHES

European made nickel plated solid brass rough and cartridges

FINITURE
Cartucce in ottone massiccio grezzo nichelato di fabbricazione Europea.
FINITIONS
Cartouches en laiton nickelé brut fabriquées en Europe.

5 SHUTOFF VALVE

Shut-off valve outlets: connections right, left or both sides simultaneously.

VALVOLA DI ARRESTO
Prese della valvola di arresto: attacco a destra, sinistra o sui due lati contemporaneamente.
VANNE D'ARRÊT
Prises de la vanne d'arrêt: à droite, à gauche ou des deux côtés simultanément.

6 REMOVABLE

Removable plug at the top for an extra indipendent shut-off valve connection.

RIMOVIBILE
Spina rimovibile nella parte superiore, per un attacco della valvola di arresto ultra indipendente.
AMOVIBLE
Fiche amovible dans la partie supérieure, pour une jonction extra indépendant de la vanne d'arrêt.

TECHNICAL DATA
Minimum dynamic pressure 0,5 bar
Maximum operational pressure 5 bar
Recommended operational pressure da 1 a 5 bar
Maximum hot water temperature 80°C

GENERAL FEATURES
Installation depth from 80 mm to 90 mm.
The intakes are fitted with G1/2" female G3/4" Male threaded connection, the outlets only G1/2"F (1, 2 or 3 way).
The temperature regulator lever is pre-set at 38°C.
Use of a pressure reducer is recommended if pressures in the system exceed 5 bar.

DATI TECNICI
Pressione dinamica minima 0,5 bar
Pressione di esercizio massima 5 bar
Pressione di utilizzo raccomandata da 1 a 5 bar
Temperatura massima acqua calda 80°C

CARATTERISTICHE GENERALI
Profondità di installazione da 80 mm a 90 mm.
Le entrate vengono fornite con filetto G1/2" femmina G3/4" maschio, le uscite solo G1/2"F (1, 2 o 3 vie).
La maniglia di regolazione temperatura, viene presettata a 38°C.
Si raccomanda l'utilizzo di un riduttore di pressione, se all'interno dell'impianto, si hanno pressioni superiori a 5 bar.

DONNÉES TECHNIQUES
Pression dynamique minimum 0,5 bar
Pression de service maximale de 5 bar
Pression d'utilisation conseillé de 1 à 5 bar
Température maximale de l'eau chaude 80 ° C

CARACTERISTIQUES GENERALES
Profondeur de montage de 80 mm à 90 mm.
Les entrées sont fournis avec filetage G1/2" femelle G3/4" mâle, les sorties G1/2"F (1,2,ou 3 voies).
La poignée de réglage de la température, est pré-réglée à 38 ° C Si à l'intérieur du système vous avez des pressions supérieures à 5 bars, il est recommandé l'utilisation d'un réducteur de pression..

9,5

TECHNICAL DATA
Minimum dynamic pressure 0,5 bar
Maximum operational pressure 5 bar
Recommended operational pressure da 1 a 5 bar
Maximum hot water temperature 80°C

GENERAL FEATURES
Installation depth from 80 mm to 90 mm.
The intakes are fitted with G1/2" female G3/4" Male threaded connection, the outlets only G1/2"F (1, 2 or 3 way).
The temperature regulator lever is pre-set at 38°C.
Use of a pressure reducer is recommended if pressures in the system exceed 5 bar.

DATI TECNICI
Pressione dinamica minima 0,5 bar
Pressione di esercizio massima 5 bar
Pressione di utilizzo raccomandata da 1 a 5 bar
Temperatura massima acqua calda 80°C

CARATTERISTICHE GENERALI
Profondità di installazione da 80 mm a 90 mm.
Le entrate vengono fornite con filetto G1/2" femmina G3/4" maschio, le uscite solo G1/2"F (1, 2 o 3 vie).
La maniglia di regolazione temperatura, viene presettata a 38°C.
Si raccomanda l'utilizzo di un riduttore di pressione, se all'interno dell'impianto, si hanno pressioni superiori a 5 bar.

DONNÉES TECHNIQUES
Pression dynamique minimum 0,5 bar
Pression de service maximale de 5 bar
Pression d'utilisation conseillé de 1 à 5 bar
Température maximale de l'eau chaude 80 ° C

CARACTERISTIQUES GENERALES
Profondeur de montage de 80 mm à 90 mm.
Les entrées sont fournis avec filetage G1/2" femelle G3/4" mâle, les sorties G1/2"F (1,2,ou 3 voies).
La poignée de réglage de la température, est pré-réglée à 38 ° C Si à l'intérieur du système vous avez des pressions supérieures à 5 bars, il est recommandé l'utilisation d'un réducteur de pression..

Only the built-in 1\2" thermostatic unit of compact size, horizontal / vertical installation
Solo parte incasso termostatico 1/2 " ingombro ridotto, installazione orizzontale / verticale.
Seulement partie encastré du thermostatique 1/2" économie d'espace, installation horizontale / vertical.

CODE / COEFFICIENT | CODICE / COEFFICIENTE | CODE / COEFFICIENT

10,3

TECHNICAL DATA
Minimum dynamic pressure 0,5 bar
Maximum operational pressure 5 bar
Recommended operational pressure da 1 a 5 bar
Maximum hot water temperature 80°C

GENERAL FEATURES
Installation depth from 80 mm to 90 mm.
The intakes are fitted with G1/2" female G3/4" Male threaded connection, the outlets only G1/2"F (1, 2 or 3 way).
The temperature regulator lever is pre-set at 38°C.
Use of a pressure reducer is recommended if pressures in the system exceed 5 bar.

DATI TECNICI
Pressione dinamica minima 0,5 bar
Pressione di esercizio massima 5 bar
Pressione di utilizzo raccomandata da 1 a 5 bar
Temperatura massima acqua calda 80°C

CARATTERISTICHE GENERALI
Profondità di installazione da 80 mm a 90 mm.
Le entrate vengono fornite con filetto G1/2" femmina G3/4" maschio, le uscite solo G1/2"F (1, 2 o 3 vie).
La maniglia di regolazione temperatura, viene presettata a 38°C.
Si raccomanda l'utilizzo di un riduttore di pressione, se all'interno dell'impianto, si hanno pressioni superiori a 5 bar.

DONNÉES TECHNIQUES
Pression dynamique minimum 0,5 bar
Pression de service maximale de 5 bar
Pression d'utilisation conseillé de 1 à 5 bar
Température maximale de l'eau chaude 80 ° C

CARACTERISTIQUES GENERALES
Profondeur de montage de 80 mm à 90 mm.
Les entrées sont fournis avec filetage G1/2" femelle G3/4" mâle, les sorties G1/2"F (1,2,ou 3 voies).
La poignée de réglage de la température, est pré-réglée à 38 ° C Si à l'intérieur du système vous avez des pressions supérieures à 5 bars, il est recommandé l'utilisation d'un réducteur de pression..

Only the built-in 1\2" thermostatic unit of compact size, horizontal / vertical installation
Solo parte incasso termostatico 1/2 " ingombro ridotto, installazione orizzontale / verticale.
Seulement partie encastré du thermostatique 1/2" économie d'espace, installation horizontale / vertical.

CODE / COEFFICIENT | CODICE / COEFFICIENTE | CODE / COEFFICIENT

12,4

TECHNICAL DATA
Minimum dynamic pressure 0,5 bar
Maximum operational pressure 5 bar
Recommended operational pressure da 1 a 5 bar
Maximum hot water temperature 80°C

GENERAL FEATURES
Installation depth from 80 mm to 90 mm.
The intakes are fitted with G1/2" female G3/4" Male female threaded connection, the outlets only G1/2"F (1, 2 or 3 way).
The temperature regulator lever is pre-set at 38°C.
Use of a pressure reducer is recommended if pressures in the system exceed 5 bar.

DATI TECNICI
Pressione dinamica minima 0,5 bar
Pressione di esercizio massima 5 bar
Pressione di utilizzo raccomandata da 1 a 5 bar
Temperatura massima acqua calda 80°C

CARATTERISTICHE GENERALI
Profondità di installazione da 80 mm a 90 mm.
Le entrate vengono fornite con filetto G1/2" femmina G3/4" maschio, le uscite solo G1/2"F (1, 2 o 3 vie).
La maniglia di regolazione temperatura, viene presettata a 38°C.
Si raccomanda l'utilizzo di un riduttore di pressione, se all'interno dell'impianto, si hanno pressioni superiori a 5 bar.

DONNÉES TECHNIQUES
Pression dynamique minimum 0,5 bar
Pression de service maximale de 5 bar
Pression d'utilisation conseillé de 1 à 5 bar
Température maximale de l'eau chaude 80 ° C

CARACTERISTIQUES GENERALES
Profondeur de montage de 80 mm à 90 mm.
Les entrées sont fournis avec filetage G1/2" femelle G3/4" mâle, les sorties G1/2"F (1,2,ou 3 voies).
La poignée de réglage de la température, est pré-réglée à 38 ° C Si à l'intérieur du système vous avez des pressions supérieures à 5 bars, il est recommandé l'utilisation d'un réducteur de pression..

Only the built-in 1\2" thermostatic unit of compact size, horizontal / vertical installation
Solo parte incasso termostatico 1/2 " ingombro ridotto, installazione orizzontale / verticale.
Seulement partie encastré du thermostatique 1/2" économie d'espace, installation horizontale / vertical.

CODE / COEFFICIENT | CODICE / COEFFICIENTE | CODE / COEFFICIENT

14,0

TECHNICAL DATA
Minimum dynamic pressure 0,5 bar
Maximum operational pressure 5 bar
Recommended operational pressure da 1 a 5 bar
Maximumhot water temperature 80°C

GENERAL FEATURES
Installation depth from 80 mm to 90 mm.
The intakes are fitted with G1/2" female G3/4" Male threaded connection, the outlets only G1/2"F (1, 2 or 3 way).
The temperature regulator lever is pre-set at 38°C.
Use of a pressure reducer is recommended if pressures in the system exceed 5 bar.

DATI TECNICI
Pressione dinamica minima 0,5 bar
Pressione di esercizio massima 5 bar
Pressione di utilizzo raccomandata da 1 a 5 bar
Temperatura massima acqua calda 80°C

CARATTERISTICHE GENERALI
Profondità di installazione da 80 mm a 90 mm.
Le entrate vengono fornite con filetto G1/2" femmina G3/4" maschio, le uscite solo G1/2"F (1, 2 o 3 vie).
La maniglia di regolazione temperatura, viene presettata a 38°C.
Si raccomanda l'utilizzo di un riduttore di pressione, se all'interno dell'impianto, si hanno pressioni superiori a 5 bar.

DONNÉES TECHNIQUES
Pression dynamique minimum 0,5 bar
Pression de service maximale de 5 bar
Pression d'utilisation conseillé de 1 à 5 bar
Température maximale de l'eau chaude 80 ° C

CARACTERISTIQUES GENERALES
rofondeur de montage de 80 mm à 90 mm.
Les entrées sont fournis avec filetage G1/2" femelle G3/4" mâle, les sorties G1/2"F (1,2,ou 3 voies).
La poignée de réglage de la température, est pré-réglée à 38 ° C Si à l'intérieur du système vous avez des pressions supérieures à 5 bars, il est recommandé l'utilisation d'un réducteur de pression..

IUA002CCXN_1

Only the built-in 1\2" thermostatic unit of compact size, horizontal / vertical installation
Solo parte incasso termostatico 1/2 " ingombro ridotto, installazione orizzontale / verticale.
Seulement partie encastré du thermostatique 1/2" économie d'espace, installation horizontale / vertical.

CODE / COEFFICIENT | CODICE / COEFFICIENTE | CODE / COEFFICIENT

8,8

TECHNICAL DATA
Minimum dynamic pressure 0,5 bar
Maximum operational pressure 5 bar
Recommended operational pressure da 1 a 5 bar
Maximum hot water temperature 80°C

GENERAL FEATURES
Installation depth from 80 mm to 90 mm.
The intakes are fitted with G1/2 AU G3/4'M female threaded connection, the outlets only G1/2"F (1, 2 or 3 way).
The temperature regulator lever is pre-set at 38°C.
Use of a pressure reducer is recommended if pressures in the system exceed 5 bar.

DATI TECNICI
Pressione dinamica minima 0,5 bar
Pressione di esercizio massima 5 bar
Pressione di utilizzo raccomandata da 1 a 5 bar
Temperatura massima acqua calda 80°C

CARATTERISTICHE GENERALI
Profondità di installazione da 80 mm a 90 mm.
Le entrate vengono fornite con filetto G1/2" femmina G3/4" maschio, le uscite solo G1/2"F (1, 2 o 3 vie).
La maniglia di regolazione temperatura, viene presettata a 38°C.
Si raccomanda l'utilizzo di un riduttore di pressione, se all'interno dell'impianto, si hanno pressioni superiori a 5 bar.

DONNÉES TECHNIQUES
Pression dynamique minimum 0,5 bar
Pression de service maximale de 5 bar
Pression d'utilisation conseillé de 1 à 5 bar
Température maximale de l'eau chaude 80 ° C

CARACTERISTIQUES GENERALES
Profondeur de montage de 80 mm à 90 mm.
Les entrées sont fournis avec filetage G1/2" femelle G3/4" mâle, les sorties G1/2"F (1,2,ou 3 voies).
La poignée de réglage de la température, est pré-réglée à 38 ° C Si à l'intérieur du système vous avez des pressions supérieures à 5 bars, il est recommandé l'utilisation d'un réducteur de pression..

Only the built-in 1\2" thermostatic unit of compact size, horizontal / vertical installation
Solo parte incasso termostatico 1/2 " ingombro ridotto, installazione orizzontale / verticale.
Seulement partie encastré du thermostatique 1/2" économie d'espace, installation horizontale / vertical.

CODE / COEFFICIENT | CODICE / COEFFICIENTE | CODE / COEFFICIENT

9,4

TECHNICAL DATA
Minimum dynamic pressure 0,5 bar
Maximum operational pressure 5 bar
Recommended operational pressure da 1 a 5 bar
Maximum hot water temperature 80°C

GENERAL FEATURES
Installation depth from 80 mm to 90 mm.
The intakes are fitted with G1/2" female G3/4" male, threaded connection, the outlets only G1/2"F (1, 2 or 3 way).
The temperature regulator lever is pre-set at 38°C.
Use of a pressure reducer is recommended if pressures in the system exceed 5 bar.

DATI TECNICI
Pressione dinamica minima 0,5 bar
Pressione di esercizio massima 5 bar
Pressione di utilizzo raccomandata da 1 a 5 bar
Temperatura massima acqua calda 80°C

CARATTERISTICHE GENERALI
Profondità di installazione da 80 mm a 90 mm.
Le entrate vengono fornite con filetto G1/2" femmina G3/4" maschio, le uscite solo G1/2"F (1, 2 o 3 vie).
La maniglia di regolazione temperatura, viene presettata a 38°C.
Si raccomanda l'utilizzo di un riduttore di pressione, se all'interno dell'impianto, si hanno pressioni superiori a 5 bar.

DONNÉES TECHNIQUES
Pression dynamique minimum 0,5 bar
Pression de service maximale de 5 bar
Pression d'utilisation conseillé de 1 à 5 bar
Température maximale de l'eau chaude 80 ° C

CARACTERISTIQUES GENERALES
Profondeur de montage de 80 mm à 90 mm.
Les entrées sont fournis avec filetage G1/2" femelle G3/4" mâle, les sorties G1/2"F (1,2,ou 3 voies).
La poignée de réglage de la température, est pré-réglée à 38 ° C Si à l'intérieur du système vous avez des pressions supérieures à 5 bars, il est recommandé l'utilisation d'un réducteur de pression.

AQUARIVA

Made to shine your wellness experience.

Peogettato per far risplendere la tua esperienza wellness.
Créée pour faire briller votre expérience de bien-être.

A shining surface, pure and linear geometric shapes: the AQUARIVA collection, through its minimal design, achieves an eternal creation whose aesthetic perfection will seduce your eye and mind. The components are manufactured in a high-quality raw material, finely worked in our laboratories. The three refined showerheads, available in twelve finishes and two sizes, provide a flexible but constant aesthetic elegance, in order to express freely your inimitable personality.

Una superficie lucente, forme geometriche pure e lineari: la collezione AQUARIVA perviene, tramite il suo design minimale, a una creazione eterna la cui perfezione estetica saprà affascinare occhio e mente. Le componenti sono realizzate a partire da una materia prima di alta qualità, finemente lavorata nei nostri laboratori.
I tre ricercati soffioni doccia, disponibili in dodici finiture e in due dimensioni, garantiscono un'eleganza estetica duttile ma costante, per dare sfogo alla tua inimitabile personalità.

Une surface brillante, des formes géométriques pures et linéaires: la collection AQUARIVA parvient, par son design minimal, à une création éternelle dont la perfection esthétique saura fasciner les yeux et l'esprit. Les composants sont fabriqués à partir d'une matière première de haute qualité, finement travaillée dans nos laboratoires. Les trois sophistiqués pommes de douche, disponibles en douze finitions et en deux tailles, garantissent une élégance esthétique à la fois souple et constante, pour donner libre cours à votre inimitable personnalité.

GREEN_

It affects the nervous system, inducing harmony and calm, and helping to forge a pensive attitude.

Agisce sul sistema nervoso, inducendo all'armonia e alla calma, e contribuendo a forgiare un atteggiamento riflessivo.

Il agit sur le système nerveux, induisant à l'harmonie et à la calme et favorisant une attitude réflexive.

BLUE_

It acts on the nervous system, with calming and invigorating effects, against stress, anxiety and insomnia disorders.

Agisce sul sistema nervoso, con effetti calmanti e corroboranti, contro lo stress e i disturbi d'ansia e d'insonnia.

Il agit sur le système nerveux avec un effet apaisant et vivifiant, contre le stress, l'anxiété et les troubles de l'insomnie.

RED_

It stimulates adrenaline and fights melancholy by transmitting heat, strengthening vital energy and passion.

Stimola l'adrenalina e combatte la malinconia, trasmettendo calore, rafforzando l'energia vitale e la passione.

Il stimule l'adrénaline et combat la mélancolie en transmettant la chaleur, renforçant l'énergie vitale et la passion.

YELLOW_

It promotes concentration and good mood, thanks to its revitalizing effects inciting to movement and transformation.

Favorisce la concentrazione e il buonumore, grazie ai suoi effetti rivitalizzanti che incitano al movimento e alla trasformazione.

Il favorise la concentration et la bonne humeur, grâce à ses effets revitalisants qui incitent au mouvement et à la transformation.

AQUABEAT

Many functions, only one goal, your relax.

Tante funzioni, un obiettivo, il tuo relax.
De nombreuses fonction, un seul but, votre relaxion.

AQUABEAT collection aims to recreate the same well being and relaxing feelings of a professional Spa, through a wide selection of products adaptable to every desire. Choosing from a range of four showerheads, different in size and function, Aquabeat guarantees a wide set of services combinations, from chromotherapy and nebulization to the double waterfall and the cervical massage, cuddling you with a high quality personalized product.

La collezione AQUABEAT si propone di ricreare le stesse sensazioni di benessere e relax di una Spa professionale, attraverso un vasto assortimento di prodotti adattabili a ogni desiderio. Scegliendo tra una gamma di quattro soffioni doccia, variabili per dimensioni e funzioni, Aquabeat permetterà di variare la combinazione dei servizi, scegliendo tra cromoterapia, nebulizzazione, doppia cascata e massaggio cervicale, per una coccola personalizzata di alta qualità.

La collection AQUABEAT vise à recréer les mêmes sensations de bien-être et de détente d'un Spa professionnel, grâce à un grand assortiment de produits adaptables à tous les goûts. En choisissant parmi une gamme de quatre pommes de douche, variables par taille et fonction, Aquabeat vous permet de varier la combinaison de services, en triant la chromothérapie, la nébulisation, la double cascade ou le massage cervical, pour un câlin personnalisé de haute qualité.

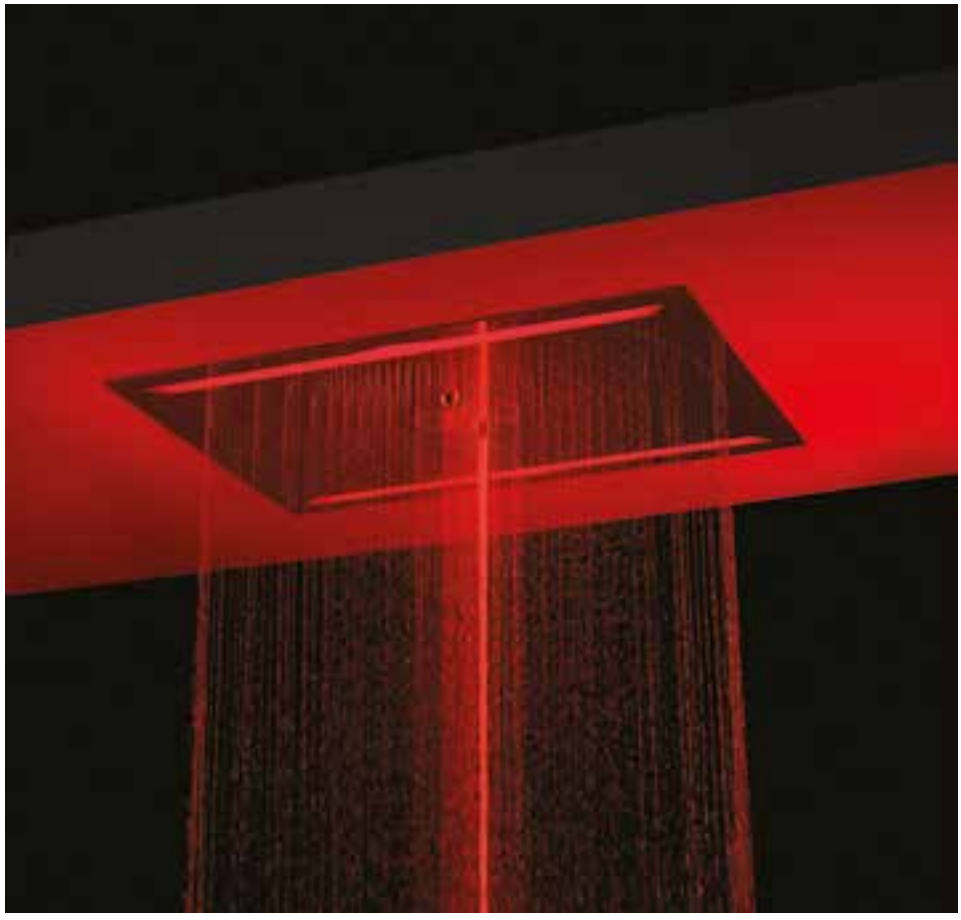
Débit minimum toléré, même avec des débits de 1 bar, l'eau s'écoule et ne perd pas son efficacité.



Aquabeat

Aquabeat offers some of the most requested functions for a complete support to your body and mind well-being. All the showerheads are equipped with integrated LED lights for chromotherapy with remote control and are associated with different water jets, from nebulization and double waterfall up to cervical massage.

Aquabeat offre una vasta gamma di funzioni tra le più richieste del settore, per un supporto completo al benessere del corpo e della mente. Tutti i soffioni sono forniti di luci LED integrate per la cromoterapia, gestibili in remoto e associate a getti d'acqua differenti, dalla nebulizzazione alla doppia cascata, fino al massaggio cervicale.

Aquabeat propose une large gamme de fonctions parmi les plus demandées du secteur, afin d'offrir un soutien complet au bien-être du corps et de l'esprit. Les pommes de douche sont tous équipés d'éclairage LED intégré pour la chromothérapie, gérable à distance et associé aux différents jets d'eau, allant du jet nébulisé et du massage cervical jusqu'à la double cascade.

ONAIR 2.0

Not an evolution but a different point of view, more subtle.

Non un’evoluzione ma un punto di vista diverso, più sottile.
Pas une evolution mais un point de vue different, plus subtil.

A steel blade stretching out from the wall like an arm, from which a powerful waterfall or the delicate touch of a thin drizzle flow: the ONAIR 2.0 collection offers a multiple jet shower fit to every desire and an innovative design, aesthetically delicate and elegant but technologically advanced, ready to update the traditional concept of shower.

Una lama in acciaio che si protende come un braccio dalla parete, da cui scende una cascata dalla prorompente purezza o il tocco delicato di una pioggerella fine: la collezione ONAIR 2.0 offre un prodotto dal getto differenziato capace di soddisfare ogni desiderio e un design innovativo, esteticamente delicato ed elegante ma tecnologicamente all’avanguardia, pronto ad aggiornare e riformulare il tradizionale concetto di doccia.

Une lame en acier qui se penche par le mur comme un bras, d’où tombe une cascade impétueuse ou une fine bruine délicate: la collection ONAIR 2.0 propose un produit aux jets différenciés capable de satisfaire tous les désirs avec un design innovant, esthétiquement délicat et élégant mais technologiquement avancée, prêt à renouveler et subvertir le concept traditionnel de douche.

The Airmix wall-mounted showerhead allows water and air to mix, guaranteeing the choice between two easily adjustable jets, the traditional rain showerhead and the hand shower with waterfall jet. The anti-limestone silicone nozzles also prevent any obstruction, providing a strong and constant flow.

Il soffione a parete Airmix permette di miscelare acqua e aria, garantendo la scelta tra due getti facilmente regolabili, il tradizionale soffione a pioggia direzionabile e il doccino comprensivo di getto a cascata. La presenza di ugelli in silicone anticalcare previene inoltre ogni ostruzione, garantendo un flusso forte e costante.

Le pomme de douche mural Airmix, grâce à sa capacité de mélanger eau et air, garantit le choix entre deux jets facilement réglables, le traditionnel pomme de douche au jet de pluie réglable et celui comprenant un jet à cascade. La présence de buses en silicone anticalcaire empêche en outre toute obstruction, garantissant un débit d'eau fort et constant.

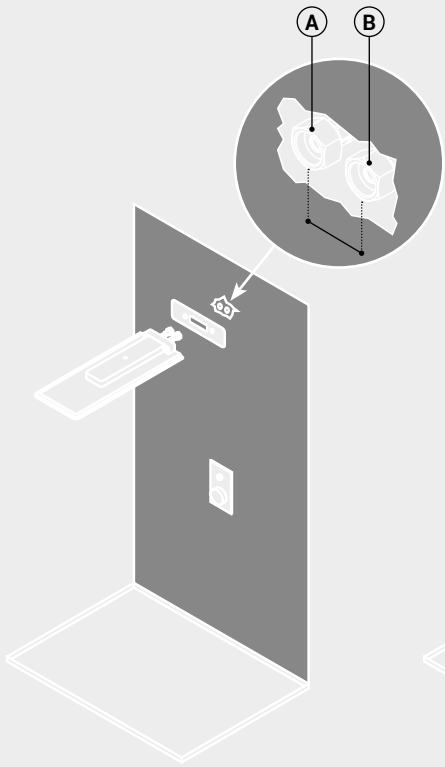
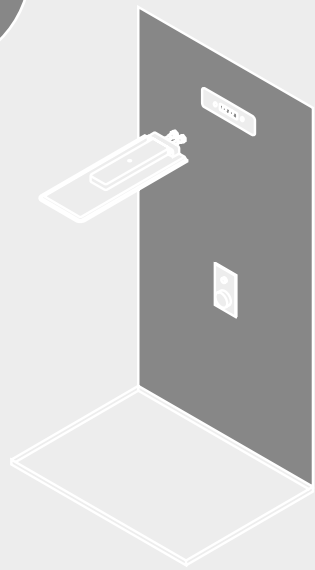
FITTING INSTRUCTIONS | ISTRUZIONI DI MONTAGGIO | INSTRUCTIONS DE MONTAGE



The two 1\2" water connections have to be in line with the wall and their interax have to be 40 mms. The water outlets willbe on the left fot the showerhead (A) and on the right for the waterfall (B).

Portare le due uscite dell'acqua con dei collegamenti da 1/2" a filo muro e con un interasse tra loro di 35 mm. Rispettivamente gli attacchi sono a sinistra per il soffione (A) e a destra per la cascata (B).

Amener les deux sorties de l'eau avec des connexions de 1/2 à fil du mur et avec une distance entre eux de 35 mm. Respectivement, les attaques sont à gauche pour la tête de douche (A) et à droite pour la chute d'eau (B).



Once the fixing plate is correctly installed on the wall, conncet the showerhead to the water connections and installation into the plate.

Una volta fissata a muro la piastra di montaggio collegare il soffione all'impianto idraulico e a sua volta ancorarlo alla piastra.

Une fois fixé la plaque de montage à la paroi, relier la tête de douche à la tuyauterie et à son tour l'ancrer à la plaque.

DROP

A true icon of the bathroom.

Icona del design per il bagno.
Icône du design pour la salle de bain.

A true icon of the bathroom design, DROP replicates the features of a drop of water, deformable to touch, guaranteeing a gentle and regular flow. Designed by Giulio Iacchetti, this product has challenged the traditional shower design by innovating its form and material. Thanks to its aesthetic and technological features, DROP is the most suitable choice for an original and incomparable high-quality bathroom.

Icona del design per il bagno, la collezione DROP riproduce le fattezze di una goccia d'acqua deformabile al tatto e garantisce un flusso delicato e uniforme. Progettato da Giulio Iacchetti, questo prodotto ha rimesso in discussione la tradizione del design per docce, innovandone forma e materiale. Per le sue caratteristiche estetiche e tecnologiche, DROP è la scelta più adatta per un bagno d'autore dal carattere inedito e di alta qualità.

Icône du design pour la salle de bain, la collection DROP reproduit la silhouette d'une goutte d'eau, déformable au toucher, et garantit un débit délicat et uniforme. Conçu par Giulio Iacchetti, ce produit a remis en question le traditionnel design de la douche, en innovant sa forme et ses matériaux. En raison de ses caractéristiques esthétiques et technologiques, DROP est le choix le plus convenable pour une salle de bains d'auteur au caractère innovant de haute qualité.

MONAMOUR

Round and square rain over your head.

Pioggia rotonda e quadrata sopra la tua testa.
Une pluie ronde et carrée au-dessus de ta tête.

The Monamour showerheads collection represents the best solution for those who look for character and originality in their shower. Available in sixteen different finishes, Monamour offers a wide selection of showerheads, seven round and seven square, different in size and thickness, built-in or ceiling-mounted, thus offering a product adaptable to every individual taste and need and free from constraints.

La collezione soffioni Monamour rappresenta la migliore soluzione per chi ricerca personalità e originalità nella propria doccia. Disponibile in sedici finiture diverse, Monamour offre un'ampia scelta di soffioni, sette di forma rotonda e altrettanti di forma quadrata, diversi in dimensioni e spessore, incassati o a soffitto, garantendo così un prodotto adattabile a ogni singolo gusto ed esigenza e libero da costrizioni.

La collection de pommes de douche Monamour représente la meilleure solution pour ceux qui cherchent forte personnalité et originalité dans leur douche. Disponible en seize finitions différentes, Monamour offre un large choix de pommes de douche, sept de forme ronde et autant de forme carrée, de taille et d'épaisseur différentes, encastrés ou à plafond, garantissant un produit adaptable à chaque goût et besoin, et sans aucune contrainte.

WALLPAPER

The luxury understatement by iB Rubinetti.

L'understatement secondo iB Rubinetti.
L'understatement de luxe selon iB Rubinetti.

Multi-functional shower in pure steel, WALLPAPER is the hidden gem in the IB Rubinetti collections. The shower is composed by an entirely built-in column, a wall level steel panel and controls that can monitor the use and intensity of three jets, employable independently or simultaneously thanks to the multifunctional control and completed by an efficient and accurate thermostatic regulator to set the required temperature.

Doccia multifunzionale in puro acciaio, WALLPAPER è la perla nascosta delle collezioni IB Rubinetti. Con una colonna completamente incassata e un pannello in acciaio perfettamente a raso parete, la doccia dispone di comandi per regolare l'utilizzo e l'intensità di tre getti, adoperabili autonomamente o in contemporanea grazie al comando multifunzione e integrati da un regolatore termostatico efficiente e ricettivo per impostare la temperatura desiderata.

Douche multifonctionnelle en pur acier, WALLPAPER est la merveille cachée des collections IB Rubinetti. Avec une colonne complètement encastrée et un panneau en acier parfaitement au ras du mur, la douche dispose de commandes pour la régulation de l'usage et de l'intensité de trois jets, utilisables indépendamment ou simultanément grâce au tableau de commande multifonctionnel et intégrés par un thermostat efficace et réceptif.

Wallpaper

Equipped with four handles to regulate the showerhead and lateral jets, the intensity of the hand shower and the temperature, WALLPAPER also comes with directional bodyjets, easily manageable from the control panel.

Dotata di quattro manopole per regolare i getti a soffione e laterali, l'intensità del doccino e la temperatura dell'acqua, la doccia è inoltre costituita da bodyjet facilmente direzionabili e gestibili dal pannello di comando.

Dotée de quatre poignées réglant le pomme de douche et les jets latéraux, l'intensité de la douchette et la température de l'eau, la douche WALLPAPER est également composée de bodyjet réglables et gérables par le tableau de commande.

MONAMOUR

The properties of a cuddle in the shower.

La qualità di una coccola in una doccia.
Les propriétés d'un câlin sous la douche.

MONAMOUR shower columns display the same high qualities of the showerheads collection: high functionality, easy to use, essential and sophisticated aesthetics. The efficiency of the thermostatic functions is combined with at the choice of quality materials . The shower is supplemented by two lateral jets and an easy-to-use and high-quality temperature and functions control system.

Le colonne doccia MONAMOUR rispecchiano tutte le alte qualità dei soffioni della collezione: alta funzionalità, facile utilizzo, estetica essenziale ed elegante. L'efficienza delle funzioni termostatiche combinata alla scelta di materiali di qulità. La doccia è completata dalla presenza di due getti laterali e da un sistema di comando della temperatura e delle funzioni di facile utilizzo e di alta qualità.

Les colonnes de douche MONAMOUR reflètent toutes les qualités des pommes de douche de la même collection: haute fonctionnalité, facilité d'utilisation, style essentiel et élégant. L'efficacité des fonctions thermostatiques est combinée au choix de matériaux de qualité. La douche est dotée de deux jets latéraux et d'un système de contrôle thermostatique très pratique et de haute qualité

Monamour

In pure steel, MONAMOUR columns can be wall-mounted or built-in, according to the setting needs and the aesthetic preferences. They are all equipped with an efficient and functional thermostatic control, with an anti-limestone food safe silicone showerhead and a brass hand shower supplemented with a cromoloux hose.

In puro acciaio, le colonne MONAMOUR possono essere istallate a parete o a incasso, secondo le necessità dell'ambiente e le preferenze estetiche. Sono tutte dotate di un comando termostatico efficiente e funzionale, di un soffione in silicone alimentare anticalcare e di un doccino in ottone integrato con flessibile Cromoloux.

Fabriquées en pur acier, les colonnes MONAMOUR peuvent être fixées au mur ou encastrées, selon les nécessités du milieu et les préférences esthétiques. Elles sont toutes dotées d'un contrôle thermostatique efficace et fonctionnel, d'un pomme de douche en silicone alimentaire anticalcaire et d'une douchette en laiton intégrée avec tuyau flexible Cromoloux.

SHOWER COLUMNS

In order to satisfy every taste and need, we have created a family of eight shower columns, perfect for any setting and innovative in their technology. The Shower Columns are all characterized by essential and refined geometric lines, round or square, and by a service suitable for every need, thanks to their thermostatic controls and first choice mixers. All columns are made of brass, available in twelve finishes and supplied with anti-limestone silicone membranes.

Per soddisfare ogni gusto ed esigenza, abbiamo creato una famiglia di otto colonne doccia, perfette per ogni ambiente e innovative nella loro tecnologia. Le colonne doccia sono tutte caratterizzate da linee geometriche essenziali e raffinate, rotonde o quadrate, e da un servizio adatto ad ogni esigenza, grazie ai comandi termostatici e ai miscelatori di prima scelta. Tutte le colonne sono realizzate in ottone, disponibili in dodici finiture e fornite con membrane siliconiche anticalcare.

Pour satisfaire tous les goûts et les besoins, nous avons créé une famille de huit colonnes de douche, idéales pour tout environnement et innovantes dans leur technologie. Les colonnes de douche se caractérisent par des lignes géométriques, rondes ou carrées, au design sobre et élégant et par un service fonctionnel à chaque besoin, grâce à ses commandes thermostatiques et ses mélangeurs de premier choix. Toutes les colonnes sont en laiton, disponibles en douze finitions et équipées de membranes en silicone anticalcaire.

ACCIAIO

The form becomes an emblem for high professionalism.

La forma si fa simbolo di alta professionalità ed efficienza.
La forme devient emblème de haut professionnalisme

The ACCIAIO collection draws inspiration from a linear aesthetics and an innovative technology, blending together just like in a professional kitchen.
The clean and modern form, elegant in its sobriety, is nothing but the mirror of a all-round technological product, consisting of pull-out hand shower, moving spring and complete rotation, which guarantee the best procedures in an elegant and sophisticated environment, where the form becomes an emblem for high professionalism and efficiency.

La collezione ACCIAIO si ispira alla fusione tra un'estetica lineare e una tecnologia innovativa, tipica delle migliori cucine professionali. La pulizia e modernità della forma, elegante nella sua sobrietà, non è altro che lo specchio di un prodotto completo e tecnologico, composto da doccetta estraibile, molla di movimento e da una rotazione completa, per garantire le migliori pratiche in un ambiente dall'elegante tocco estetico, in cui la forma si fa simbolo di alta professionalità ed efficienza.

La collection ACCIAIO s'inspire de la fusion entre une esthétique linéaire et une technologie innovante, typique des meilleures cuisines professionnelles. La pureté et modernité de la forme, élégante dans sa sobriété, n'est que le miroir d'un produit hautement technologique, composé d'une douchette extractible, d'un ressort de mouvement et d'une rotation complète, qui garantit les meilleures pratiques dans un environnement à la touche esthétique raffinée, où la forme devient emblème de haut professionnalisme et efficience.

LOFT

The boundless modern kitchen style.

Lo stile della cucina moderna senza confini.
Le style de cuisine moderne sans bornes.

Wide open rooms, clean and elegant lines, the modern style of bright and boundless spaces: LOFT collection draws inspiration from the elegant lofts of contemporary cities, reinterpreted in the form of kitchen faucets with a modern and sophisticated look. The avant-garde technology, which includes pull-out hand shower, moving spring and complete rotation, matches with a linear and elegant look and with chromed finishes, adding even more refinement to this high-class product.

Gli ampi spazi aperti, le linee pulite ed eleganti, lo stile moderno di uno spazio luminoso e senza limiti: la collezione LOFT trae ispirazione dalle eleganti abitazioni delle città moderne, reinterpretandole nella forma di rubinetti per cucina dall'aspetto moderno e ricercato. La tecnologia d'avanguardia, che include doccetta estraibile, molla di movimento e rotazione completa, è appaiata a un'estetica lineare ed elegante, completa di finiture cromate che aggiungono un'ancora maggiore ricercatezza a questo prodotto di alta classe.

Les grands espaces, les lignes pures et élégantes, le style moderne d'un milieu lumineux et illimité: la collection LOFT s'inspire des élégantes demeures de la ville moderne, pour les réinterpréter sous forme de robinets de cuisine aux traits modernes et sophistiqués. La technologie d'avant-garde, composée par une douchette extractible, un ressort de mouvement et une rotation complète, est associée à une esthétique linéaire et élégante, complétée par des finitions chromées qui ajoutent encore plus de raffinement à ce produit haut de gamme.

GENERAL TERMS AND CONDITIONS OF SALE

General

IB Rubinetterie Spa shall assume this manufacturer's guarantee towards consumers of IB Rubinetterie Spa products in addition to the legal guarantee to which the consumer is entitled in relation to the seller. It shall apply without prejudice to mandatory liability regulations, such as those in accordance with the Product Liability Act, in cases of wilful intent and gross negligence, or resulting from loss of life, physical injury or damage to health by IB Rubinetterie Spa or its agents.

The term "consumer" in this manufacturer's guarantee shall refer to any natural person who owns the product and has not purchased it for the purpose of resale to or installation for a third party within the scope of its commercial or self-employed professional activities. The term "primary customer" shall mean the consumer who has directly purchased the product from IB Rubinetterie Spa or a dealer or other natural or legal person who resells or installs the product within the scope of its commercial or self-employed professional activities.

Guarantee protection

Valid for IB Rubinetterie Spa products purchased by primary customers on or after 01/01/2010 (purchase receipt):

IB Rubinetterie Spa guarantees consumers that its products are free from material, manufacturing and design faults. The latest science and technology at the time of manufacture is decisive in this regard. The defect giving rise to the damage must already have been present in the product at this time. Claims for the reimbursement of consequential damage or on the grounds of product liability shall only be valid in accordance with mandatory legal regulations.

This guarantee shall be valid for five years from the purchase date by the primary customer, and for a maximum of six years from the date of manufacture. The guarantee period shall not be extended due to the provision of services within the scope of this guarantee, especially not in the event of servicing or replacement. In such cases, the guarantee period shall also not start anew.

Written notification of defects

The consumer shall be entitled to asset the rights from this guarantee by providing IB Rubinetterie Spa or the dealer from whom the primary customer purchased the product with a written notification of defect within the guarantee period. The consumer must also provide notification of the defect within two months of its detection or the time at which its detection must have been possible. The consumer shall be obliged to prove that the guarantee has not expired (for example, by presenting the primary customer's purchase receipt). IB Rubinetterie Spa shall also be entitled to determine the start of the guarantee period on the basis of the data of manufacture.

Services in the event of a guarantee claim

IB Rubinetterie Spa shall be entitled to repair or replace the product, or to reimburse the consumer the purchase price.

Usually, the consumer has the faulty product repaired by a specialist on site with the prior agreement of IB Rubinetterie Spa. In such an event, the guarantee shall cover the free delivery of the necessary spare parts. If IB Rubinetterie Spa issues a written decision to conduct the maintenance itself, IB Rubinetterie Spa shall bear any costs that arise for spare parts, installation and labour, as well as any expenses incurred through the transportation or dispatch of the product. The consumer must provide access to the product.

In the event of a replacement, the old product shall be replaced by a new product of the same kind, value and type. If the product in question is no longer manufactured at the time at which the defect is reported, IB Rubinetterie Spa shall be entitled to supply a similar product. Transport or dispatch to and from IB Rubinetterie Spa or to and from the dealer, any de-installation and re-installation of the product or any other special measures can only be carried out with the prior agreement of IB Rubinetterie Spa. If IB Rubinetterie Spa agrees to the intended measure, IB Rubinetterie Spa shall bear the costs arising from the measure being conducted. Unless otherwise agreed, the consumer shall undertake to collect the new product from the nearest IB Rubinetterie Spa dealer.

If IB Rubinetterie Spa chooses to reimburse the purchase price and confirms this in writing, the consumer shall return the product and IB Rubinetterie Spa shall reimburse the purchase price paid.

Conditions and exclusions

This guarantee shall only be valid if installation and maintenance have been duly conducted in accordance with the operating instructions and generally accepted engineering practices (e.g. by a master craftsman or authorised specialist), the operating instructions have been complied with and the IB Rubinetterie Spa products have been used in line with the technical and maintenance instructions provided by IB Rubinetterie Spa.

This shall include but not be limited to the inlet water pipes being duly flushed, especially prior to the product's installation or following construction measures in accordance with the valid standards, installation work complying with the appended diagrams and checks being conducted on the compliance of the working pressure in the water mains with technical specifications.

Installation, usage and maintenance instructions are provided with all products and can be found on www.ibrubinetterie.it

The guarantee shall not cover:

- Wear to wear and tear parts such as seals;
- Breakage of breakable components such as glass or bulbs;
- The exhaustion of consumable materials such as batteries, filters or aerators;
- Slight deviations of the IB Rubinetterie Spa products from the target quality that do not affect the usability of the product;
- Cleaning, water jets, in particular hot water jets, lime-scale deposits, operating and handling errors, damage caused by aggressive environmental influences, chemicals or detergents;
- Product defects caused by the installation, transportation or test operation of the purchased item;
- Damage caused by the faulty IB Rubinetterie Spa product;
- Display products and similar.
- The guarantee shall not be valid in the event of:
- Non-compliance with the installation, maintenance and usage instructions appended or provided at www.ibrubinetterie.it;
- Installation, maintenance, repair or servicing by non-qualified persons;
- Product damage caused by the seller, plumber or third persons;
- Damage that can be attributed to normal wear or intentional damage – in the event of negligent damage, contributory negligence shall be offset on agreement;
- Improper installation or commissioning;
- Insufficient or improper maintenance;
- Products that have not been or are not used in line with their

intended purpose;

- Damage caused by force majeure or natural disasters, especially but not limited to floods, fires or frost damage.

Non-applicability of the guarantee

If a product defect is not covered by this guarantee, any costs that arise from the dispatch and transportation of the product shall be borne by the consumer. The consumer must also bear any costs, including labour costs, arising from the inspection of the product, as well as the costs of de-installing and re-installing the product.

If, having been informed of the non-applicability of the guarantee and the potential costs that could arise through the servicing activities, the consumer wishes the servicing activities to be conducted, it must also bear the costs of the spare parts and labour.

If the product defect was not present upon delivery, IB Rubinetterie Spa shall decide on a case-by-case basis whether said defect can be rectified through goodwill. In such cases, the consumer shall not have any legal right to the rectification of the defect.

Legal rights

In addition to the rights from the guarantee, the consumer shall also be entitled to statutory rights. These sometimes lesser rights for the consumer shall not be restricted by the guarantee. The guarantee shall also not affect the rights of the primary customer and, where applicable, the consumer in relation to the seller from whom the primary customer procured the product.

Place of fulfilment, place of judisdiction and applicable laws

This guarantee shall be subject to Italian law under the exclusion of the UN Convention on Contracts for the International Sale of Goods (CISG) of 11 April 1980. The place of fulfilment for the obligations under this guarantee shall be Brescia, Italy. Where permissible, the place of jurisdiction shall be Brescia, Italy.

IB RUBINETTI CLEANING RECOMMENDATION

Today, modern sanitary and kitchen tapware, showers, accessories, washbasins, tubs and radiators consist of very different materials to comply with the needs of the market with regard to design and functionality.To avoid damage and claims, it is necessary to consider certain criteria when cleaning.

With regard to cleaning IB RUBINETTI products, the following points must be observed:

- Only use cleaning material which is explicitly provided for this type of application.
- Never use cleaning materials, which contain hydrochloric acid, formic acid, chlorine bleaching lye or acetic acid, as they cause considerable damage.
- Phosphorus acidic cleaners are only applicable under certain conditions.
- Mixing different cleaning agents is generally not permitted.
- Never use cleaning materials or appliances with an abrasive effect, such as unsuitable cleaning powders, sponge pads or micro fibre cloths.
- The instructions of the cleaning agent manufacturers have to be followed closely.
- Cleaning has to be carried out with a specified dosage of cleaning detergent, for a suitable limited time, object-related and adapted to the needs.
- Limescale has to be removed by regularly cleaning.
- When using spray cleaners, spray the cleaning solution onto a soft cloth or sponge, never directly onto the IB RUBINETTI products, as the atomised spray could enter openings and gaps in the product and cause damage.
- After cleaning, rinse thoroughly with clean water to remove any cleaner residue.
- The use of steam cleaners is not permitted. The high temperatures can damage the products.

⚠ Important

Residues of toiletries such as liquid soaps, shampoos and shower gels, hair dyes, perfumes, aftershave and nail varnish can also cause damage. Here too: Carefully rinse with water after use to remove residues. Likewise, do not store any cleaning agents or chemicals under the products, for example in a vanity unit, as the vapours may damage the products.

Components with damaged surfaces must be exchanged otherwise there could be a risk of injury. Damage caused by improper treatment is not covered by our guarantee.

ITA

CONDIZIONI GENERALI DI VENDITA

Generale

IB Rubinetterie Spa assumerà la garanzia del produttore nei confronti dei consumatori dei prodotti IB Rubinetterie Spa oltre alla garanzia legale a cui il consumatore ha diritto in relazione al venditore. Si applica senza pregiudizio delle norme di responsabilità obbligatoria, come quelle in conformità con la legge sulla responsabilità del prodotto, in caso di dolo intenzionale e colpa grave, o derivanti dalla perdita di vite umane, lesioni fisiche o danni alla salute da parte di IB Rubinetterie Spa o dei suoi agenti. .

Il termine "consumatore" nella presente garanzia del produttore si riferisce a qualsiasi persona fisica proprietaria del prodotto e che non l'abbia acquistata a scopo di rivendita o installazione per conto di terzi nell'ambito delle sue attività professionali commerciali o indipendenti. Con il termine "cliente principale" si intende il consumatore che ha acquistato direttamente il prodotto da IB Rubinetterie Spa o un rivenditore o altra persona fisica o giuridica che rivende o installa il prodotto nell'ambito delle sue attività professionali commerciali o indipendenti.

Garanzia di protezione

Valido per i prodotti IB Rubinetterie Spa acquistati dai clienti primari a partire dall'01 / 01/2010 (ricevuta di acquisto):

IB Rubinetterie Spa garantisce ai consumatori che i suoi prodotti sono privi di materiali, produzione e difetti di progettazione. L'ultima scienza e tecnologia al momento della produzione è decisiva a questo proposito. Il difetto all'origine del danno deve già essere stato presente nel prodotto in questo momento. Reclami per il rimborso di danni conseguenti o sulla base della responsabilità del prodotto è valida solo in conformità con le norme di legge obbligatorie.

Questa garanzia sarà valida per cinque anni dalla data di acquisto da parte del cliente principale e per un massimo di sei anni dalla data di produzione. Il periodo di garanzia non può essere esteso a causa della fornitura di

servizi nell'ambito di questa garanzia, in particolare non in caso di assistenza o sostituzione.

In tali casi, anche il periodo di garanzia non deve iniziare di nuovo.

Condizioni ed esclusioni

Questa garanzia è valida solo se l'installazione e la manutenzione sono state eseguite correttamente in conformità con le istruzioni operative e le pratiche ingegneristiche generalmente accettate (ad esempio da un maestro artigiano o specialista autorizzato), le istruzioni operative sono state rispettate e i prodotti IB Rubinetterie Spa hanno è stato utilizzato in linea con le istruzioni tecniche e di manutenzione fornite da IB Rubinetterie Spa.

Ciò deve includere ma non essere limitato al fatto che i tubi dell'acqua di ingresso siano debitamente lavati, specialmente prima dell'installazione del prodotto o in seguito a misure di costruzione conformi alle norme vigenti, lavori di installazione conformi agli schemi allegati e verifiche condotte sulla conformità del funzionamento pressione nella rete idrica con specifiche tecniche.

Le istruzioni di installazione, uso e manutenzione sono fornite con tutti i prodotti e possono essere trovate su www.ibrubinetterie.it

La garanzia non copre:

- Indossare parti soggette ad usura come guarnizioni;
- Rottura di componenti fragili come vetro o lampadine;
- L'esaurimento di materiali di consumo come batterie, filtri o aeratori;
- Lievi deviazioni dei prodotti IB Rubinetterie Spa dalla qualità target che non pregiudicano l'usabilità del prodotto;
- Pulizia, getti d'acqua, in particolare getti d'acqua calda, depositi di calcare, errori di funzionamento e di manipolazione, danni causati da influenze ambientali aggressive, prodotti chimici o detergenti;
- Difetti del prodotto causati dall'installazione, trasporto o collaudo dell'elemento acquistato;
- Danni causati dal prodotto difettoso IB Rubinetterie Spa;
- Visualizza prodotti e simili.

La garanzia non è valida in caso di:

- Inosservanza delle istruzioni di installazione, manutenzione e utilizzo allegate o fornite su www.ibrubinetterie.it;
- Installazione, manutenzione, riparazione o assistenza da parte di persone non qualificate;
- Danni al prodotto causati dal venditore, dall'idraulico o da terze persone;
- Danni che possono essere attribuiti a normale usura o danno intenzionale - in caso di danno colposo, la negligenza contributiva deve essere compensata su accordo;
- Installazione o messa in servizio errate;
- Manutenzione insufficiente o impropria;
- Prodotti che non sono stati o non sono utilizzati in conformità con lo scopo previsto;
- Danni causati da cause di forza maggiore o disastri naturali, in particolare ma non limitati a inondazioni, incendi o danni da gelo.

Non applicabilità della garanzia

Se un difetto del prodotto non è coperto da questa garanzia, tutti i costi derivanti dalla spedizione e dal trasporto del prodotto sono a carico del consumatore. Il consumatore deve inoltre sostenere tutti i costi, compresi i costi di manodopera, derivanti dall'ispezione del prodotto, nonché i costi di disinstallazione e reinstallazione del prodotto.

Se, essendo stato informato della non applicabilità della garanzia e dei potenziali costi che potrebbero derivare dalle attività di servizio, il consumatore desidera che le attività di manutenzione siano condotte, deve anche sostenere i costi dei pezzi di ricambio e della manodopera.

Qualora il difetto del prodotto non fosse presente alla consegna, IB Rubinetterie Spa deciderà caso per caso se tale difetto possa essere rettificato tramite avviamento. In tali casi, il consumatore non ha alcun diritto legale alla rettifica del difetto.

Diritti legali

Oltre ai diritti derivanti dalla garanzia, il consumatore ha anche diritto ai diritti legali. Questi diritti a volte minori per il consumatore non devono essere limitati dalla garanzia. La garanzia non pregiudica inoltre i diritti del cliente principale e, se del caso, del consumatore in relazione al venditore presso il quale il cliente principale ha acquistato il prodotto.

Luogo di adempimento, luogo di giurisdizione e leggi applicabili

Tale garanzia sarà soggetta alla legge italiana con l'esclusione della Convenzione delle Nazioni Unite sui contratti di vendita internazionale di merci (CISG) dell'11 aprile 1980. Il luogo di adempimento per gli obblighi derivanti dalla presente garanzia sarà Brescia, Italia. Ove consentito, il foro competente è Brescia, Italia.

RACCOMANDAZIONE DI PULIZIA IB RUBINETTI

Oggi i moderni prodotti come rubinetteria sanitaria, rubinetteria da cucina, docce, accessori, lavabi, vasche e radiatori sono costituiti da materiali molto diversi per soddisfare le esigenze del mercato in termini di design e funzionalità. Per evitare danni e reclami, è necessario considerare alcuni criteri durante la pulizia.

Per quanto riguarda la pulizia dei prodotti IB RUBINETTI, è necessario osservare i seguenti punti:

- Utilizzare esclusivamente materiali di pulizia specificatamente previsti per questo tipo di applicazione.
- Non utilizzare mai detergenti che contengono acido cloridrico, acido formico, liscivia a base di cloro o acido acetico, poiché causano danni considerevoli.
- I detergenti acidi al fosforo sono applicabili solo in determinate condizioni.
- La miscelazione di detergenti diversi non è generalmente consentita.
- Non utilizzare mai materiali o apparecchi per la pulizia con un effetto abrasivo, come polveri detergenti non idonei, spugne o panni in microfibra.
- Le istruzioni dei produttori di detergenti devono essere seguite attentamente.
- La pulizia deve essere eseguita con un dosaggio specifico di detergente per la pulizia, per un tempo limitato adatto, correlato all'oggetto e adattato alle esigenze.
- Il calcare deve essere rimosso regolarmente.
- Quando si usano detergenti spray, spruzzare la soluzione detergente su un panno morbido o una spugna, mai direttamente sui prodotti IB RUBINETTI, poiché lo spray nebulizzato potrebbe penetrare nelle giunture e negli spazi vuoti del prodotto e causare danni.
- Dopo la pulizia, sciacquare abbondantemente con acqua pulita per rimuovere eventuali residui di detergente.
- L'uso di pulitori a vapore non è permesso. Le alte temperature possono danneggiare i prodotti.

⚠ **Importante**

Residui di articoli da toeletta come saponi liquidi, shampoo e gel doccia, tinture per capelli, profumi, dopobarba e smalto possono anch'essi causare danni. Anche qui: risciacquare accuratamente con acqua dopo l'uso per rimuovere i residui. Allo stesso modo, non conservare alcun detergente o prodotto chimico sotto i prodotti, per esempio negli scompartimenti sotto al lavabo, in quanto i vapori potrebbero danneggiare i prodotti.

I componenti con superfici danneggiate devono essere sostituiti altrimenti potrebbe esserci il rischio di lesioni. I danni causati da un trattamento improprio non sono coperti dalla nostra garanzia.

FRA

CONDITIONS DE VENTE

Général

IB Rubinetterie SpA assume la garantie du fabricant à l'égard des consommateurs des produits IB Rubinetterie SpA, en plus de la garantie légale à laquelle le consommateur a droit vis-à-vis du vendeur. Il s'applique sans préjudice des dispositions légales en matière de responsabilité, telles que celles prévues par la loi sur la responsabilité du fait des produits, en cas de faute intentionnelle ou de faute grave, résultant en une perte de la vie, d'une lésion corporelle ou d'un dommage à la santé de IB Rubinetterie SpA ou de ses agents.

Le terme «consommateur» dans la présente garantie du fabricant s'entend de toute personne physique propriétaire du produit qui ne l'a pas acheté à des fins de revente ou d'installation pour un tiers dans le cadre de ses activités professionnelles commerciales ou non salariées. Le terme «client primaire» désigne le consommateur qui a directement acheté le produit à IB Rubinetterie SpA ou à un revendeur ou une autre personne physique ou morale qui revend ou installe le produit dans le cadre de ses activités professionnelles commerciales ou non salariées.

Garantie de protection

Valable pour les produits IB Rubinetterie SpA achetés par les principaux clients à partir du 01/01/2010 (reçu d'achat):

IB Rubinetterie SpA garantit aux consommateurs que ses produits sont exempts de matières, de fabrication etdéfauts de conception. La science et la technologie les plus récentes au moment de la fabrication sont décisivesà cet égard. Le défaut à l'origine du dommage doit déjà être présent dans le produit à ce moment. Demandes de remboursement de dommages indirects ou pour des motifs liés à la responsabilité du produit ne sera valable que conformément aux dispositions légales en vigueur.

Cette garantie est valable cinq ans à compter de la date d'achat par le client principal et au maximum six ans à compter de la date de fabrication. La période de garantie ne doit pas être prolongée en raison de la fourniture de services entrant dans le cadre de la présente garantie, notamment en cas d'entretien ou de remplacement. Dans ce cas, la période de garantie ne doit pas non plus recommencer.

Notification écrite des défauts

Le consommateur a le droit de tirer parti des droits de cette garantie en fournissant à IB Rubinetterie SpA ou au revendeur auprès duquel le client principal a acheté le produit un avis écrit du défaut dans le délai de garantie. Le consommateur doit également notifier le défaut dans les deux mois suivant sa détection ou le moment où sa détection doit avoir été possible. Le consommateur est tenu de prouver que la garantie n'a pas expiré (par exemple, en présentant le reçu d'achat du client principal).

IB Rubinetterie SpA est également habilitée à déterminer le début de la période de garantie sur la base des données de fabrication.

Services en cas de réclamation de garantie

IB Rubinetterie SpA est habilitée à réparer ou à remplacer le produit, ou à rembourser le prix d'achat au consommateur.

En règle générale, le consommateur fait réparer le produit défectueux par un spécialiste, avec l'accord préalable de IB Rubinetterie SpA. Dans ce cas, la garantie couvre la livraison gratuite des pièces de rechange nécessaires. Si IB Rubinetterie SpA publie une décision écrite concernant la maintenance elle-même, IB Rubinetterie SpA supportera tous les frais occasionnés par les pièces de rechange, l'installation et la main-d'œuvre, ainsi que les frais occasionnés par le transport ou l'envoi du produit. Le consommateur doit donner accès au produit.

En cas de remplacement, l'ancien produit doit être remplacé par un nouveau produit du même type, de la même valeur et du même type. Si le produit en question n'est plus fabriqué au moment où le défaut est signalé, IB Rubinetterie SpA est autorisée à fournir un produit similaire. Le transport ou l'expédition vers et depuis IB Rubinetterie SpA ou vers et depuis le revendeur, toute désinstallation et réinstallation du produit ou toute autre mesure particulière ne peuvent être effectués qu'avec l'accord préalable de IB Rubinetterie SpA. Si IB Rubinetterie SpA accepte la mesure envisagée, IB Rubinetterie SpA assumera les coûts découlant de la mesure. Sauf convention contraire, le consommateur s'engage à retirer ce nouveau produit auprès du revendeur IB Rubinetterie SpA le plus proche.

Si IB Rubinetterie SpA choisit de rembourser le prix d'achat et le confirme par écrit, le consommateur retournera le produit et IB Rubinetterie SpA remboursera le prix d'achat payé.

Conditions et exclusions

Cette garantie n'est valable que si l'installation et la maintenance ont été dûment effectuées conformément aux instructions d'utilisation et aux pratiques techniques généralement acceptées (par exemple par un maître-artisan ou un spécialiste agréé), si les instructions d'utilisation ont été respectées et si les produits IB Rubinetterie SpA ont été utilisé conformément aux instructions techniques et de maintenance fournies par IB Rubinetterie SpA.

Cela inclut, sans toutefois s'y limiter, que les tuyaux d'arrivée d'eau soient dûment rincés, en particulier avant l'installation du produit ou après les mesures de construction conformément aux normes en vigueur, des travaux d'installation conformes aux schémas annexés et des contrôles en cours sur la conformité des conditions de travail pression dans les conduites d'eau avec spécifications techniques.

Les instructions d'installation, d'utilisation et de maintenance sont fournies avec tous les produits et peuvent être consultées sur www.ibrubinetterie.it

La garantie ne couvre pas:

- les pièces d'usure telles que les joints d'étanchéité;
- rupture de composants fragiles tels que le verre ou les ampoules;
- l'épuisement des matériaux consommables tels que les piles, les filtres ou les aérateurs;
- Légères déviations des produits IB Rubinetterie SpA par rapport à la qualité cible n'affectant pas la facilité d'utilisation du produit;
- nettoyage, jets d'eau, en particulier jets d'eau chaude, dépôts de calcaire, erreurs de fonctionnement et de manipulation, dommages causés par des influences environnementales agressives, produits chimiques ou détergents;
- les défauts du produit causés par l'installation, le transport ou le test de fonctionnement de l'article acheté;
- Dommages causés par le produit IB Rubinetterie SpA défectueux;
- Afficher les produits et similaires.

La garantie ne sera pas valable en cas de:

- Non-respect des instructions d'installation, de maintenance et d'utilisation annexées ou fournies sur le site www.ibrubinetterie.it;
- installation, maintenance, réparation ou entretien par des personnes non qualifiées;
- les dommages au produit causés par le vendeur, le plombier ou des tiers;
- Dommages pouvant être attribués à l'usure normale ou intentionnelle - en cas de dommage par négligence, la négligence contributive est compensée par accord;

- mauvaise installation ou mise en service;
- entretien insuffisant ou inapproprié;
- les produits qui n'ont pas été utilisés ou ne sont pas utilisés conformément à leur destination;
- Dommages causés par des cas de force majeure ou des catastrophes naturelles, notamment des inondations, des incendies ou des dégâts dus au gel.

Non-applicabilité de la garantie

Si un défaut de produit n'est pas couvert par cette garantie, tous les frais occasionnés par l'expédition et le transport du produit sont à la charge du consommateur. Le consommateur doit également supporter tous les coûts, y compris les coûts de main-d'œuvre, résultant de l'inspection du produit, ainsi que les coûts de désinstallation et de réinstallation du produit.

Si, après avoir été informé de la non-applicabilité de la garantie et des coûts potentiels pouvant découler des activités de maintenance, le consommateur souhaite que les activités de maintenance soient menées, il doit également supporter les coûts des pièces de rechange et de la main-d'œuvre.

Si le défaut du produit n'était pas présent à la livraison, IB Rubinetterie SpA décidera au cas par cas si ledit défaut peut être corrigé par le biais de l'achalandage. Dans ce cas, le consommateur n'a légalement aucun droit à la rectification du défaut.

Droits légaux

En plus des droits découlant de la garantie, le consommateur a également droit à des droits légaux. Ces droits parfois moindres pour le consommateur ne sont pas limités par la garantie. La garantie ne porte pas non plus atteinte aux droits du client primaire et, le cas échéant, du consommateur vis-à-vis du vendeur auprès duquel le client primaire a acheté le produit.

Lieu d'exécution, lieu d'exécution et lois applicables

La présente garantie est soumise à la loi italienne, à l'exclusion de la Convention des Nations Unies sur les contrats de vente internationale de marchandises (CVIM) du 11 avril 1980. Le lieu d'exécution des obligations découlant de cette garantie est Brescia, Italie. Le cas échéant, le lieu de juridiction sera Brescia, Italie.

RECOMMANDATION DE NETTOYAGE IB RUBINETTI

Aujourd'hui, les robinetteries sanitaires et de cuisine modernes, les douches, les accessoires, les lavabos, les cuves et les radiateurs sont constitués de matériaux très différents pour répondre aux besoins du marché en termes de conception et de fonctionnalité. Pour éviter tout dommage et toute prétention, lors du nettoyage.

En ce qui concerne le nettoyage des produits IB RUBINETTI, les points suivants doivent être respectés:

- Utilisez uniquement du matériel de nettoyage explicitement fourni pour ce type d'application.
- N'utilisez jamais de produits de nettoyage contenant de l'acide chlorhydrique, de l'acide formique, de la lessive de blanchiment chlorée ou de l'acide acétique, car ils causent des dégâts considérables.
- Les nettoyants acides au phosphore ne sont applicables que dans certaines conditions.
- Le mélange de différents agents de nettoyage n'est généralement pas autorisé.
- N'utilisez jamais de produits de nettoyage ou d'appareils ayant un effet abrasif, tels que poudres de nettoyage inappropriées, tampons éponges ou chiffons en microfibre.
- Les instructions des fabricants d'agents de nettoyage doivent être suivies à la lettre.
- Le nettoyage doit être effectué avec un dosage spécifié de détergent de nettoyage, pendant une durée appropriée, liée à l'objet et adaptée aux besoins.
- Le calcaire doit être enlevé en le nettoyant régulièrement.
- Lorsque vous utilisez des nettoyants en spray, vaporisez la solution de nettoyage sur un chiffon doux ou une éponge, jamais directement sur les produits IB RUBINETTI, car le spray atomisé pourrait pénétrer dans les ouvertures et les fentes du produit et causer des dommages.
- Après le nettoyage, rincez abondamment à l'eau claire pour éliminer tout résidu de nettoyant.
- L'utilisation de nettoyeurs à vapeur n'est pas autorisée. Les températures élevées peuvent endommager les produits.

⚠ Important

Les résidus d'articles de toilette, tels que les savons liquides, les shampooings et les gels pour la douche, les teintures pour les cheveux, les parfums, les lotions après-rasage et les vernis à ongles peuvent également causer des dommages. Ici aussi: après l'utilisation, rincez soigneusement à l'eau pour éliminer les résidus. De même, ne stockez pas d'agents de nettoyage ou de produits chimiques sous les produits, par exemple dans une coiffeuse, car les vapeurs peuvent endommager les produits.

Les composants dont les surfaces sont endommagées doivent être remplacés afin d'éviter tout risque de blessure. Les dommages causés par un traitement inapproprié ne sont pas couverts par notre garantie.
